# Historic Test Pieces from the 2023 Trial of the Pyx

Presented on Behalf of The Royal Mint

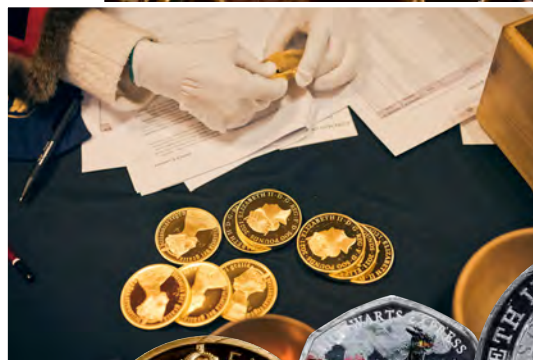

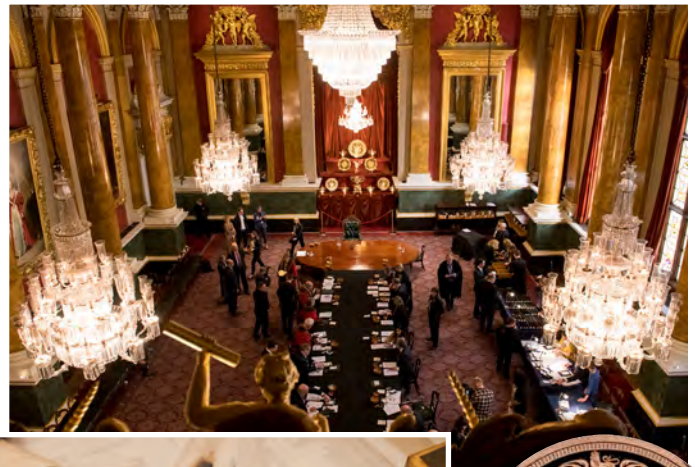

Offered in this historic auction is a selection of special coins that have been tested and evaluated as part of the annual Trial of the Pyx, an ancient and rigorous evaluation ceremony with origins that stretch back over seven centuries. This is the first time such a diverse and robust offering of these Trial of the Pyx test coins will be presented in a public auction, and it is sure to draw attention from collectors and investors around the world.

The Trial of the Pyx is conducted annually by The Royal Mint to ensure the accuracy and integrity of the nation's coinage. During the trial, a selected panel of expert assayers from the Goldsmiths' Company, an independent organization, examines a sample of coins produced by The Royal Mint the previous year. The coins are tested for weight, diameter, composition, and design, verifying their compliance with legal standards set by the Coinage Act and in Royal Proclamations. The findings are reported to the King's Remembrancer, who presides over the trial on behalf of the Crown. The trial concludes with an announcement of the verdict, confirming the quality and accuracy of the coinage.

This special auction by Stack's Bowers Galleries features an impressive selection of gold, silver, and platinum coins tested in the 2023 Trial of the Pyx. Comprising a wide range of categories, they include numismatic classics such as the Sovereign and Britannia series, as well as celebrations of modern pop-culture icons including Harry Potter and The Rolling Stones. This selection is particularly noteworthy for spanning the numismatic legacies of two monarchs – Queen Elizabeth II and King Charles III – as well as many coins struck to celebrate Her Late Majesty the Queen's Platinum Jubilee. Highlights in this offering include examples of the Gold 5 Ounce 2022 Britannia Proof coin, the Gold 5 Ounce 2022 Queen Elizabeth II Memorial Proof coin, the Platinum £5 2022 Queen Elizabeth II Proof Piedfort

coin, the Gold 2 Ounce 2022 Rolling Stones Proof coin and the 2022 Harry Potter Proof coins.

The auction features both individual items and multi-coin lots, offering collectors a variety of options to purchase these exciting test pieces. The coins are encapsulated by leading grading service Numismatic Guaranty Company (NGC) and feature custom labels recognizing their historic significance. Every coin also bears distinct evaluation marks associated with the Trial of the Pyx, making each a truly unique treasure.

## The British Royal Mint

The British Royal Mint, with its origins dating back over a thousand years, holds a significant place in the annals of coinage. It ranks as the United Kingdom's oldest continually operating company and one of the oldest mints in the world.

Its establishment can be traced to the reign of Alfred the Great in the late 9th century when a mint was set up in London. By the mid-13th century a clear organisational framework existed for the monarch's mint in London consisting of a hierarchy of officers. From at least the 1270s there was also a known location within the Tower of London and the organisation became increasingly well established and formalised. The Royal Mint has played a crucial role in producing coins for the realm and maintaining the integrity of the currency. Over the centuries, it expanded and moved to various locations, including Tower Hill, and the current state-of-the-art facility in South Wales.

Throughout its history, The Royal Mint has had to innovate to maintain relevance. In the 17th century, the introduction of the screw press at the Mint revolutionized coin production, enabling greater consistency of production. Later, steam-powered machinery

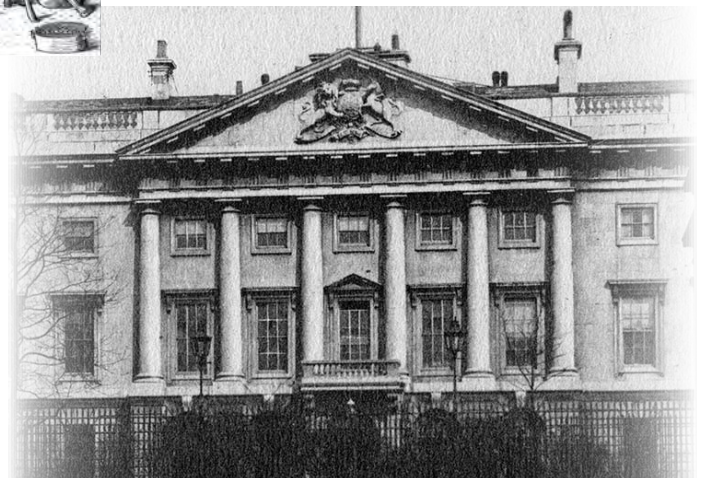

and advancements in metallurgy further enhanced efficiency and quality. The Royal Mint has also been responsible for establishing and refining coin standards. The coinage reforms introduced in 1816 effectively established the modern gold standard, and ensured that gold coins contained a specified amount of gold. In 1971, the Mint played a vital role in decimalisation of the British currency, marking a significant milestone in the nation's monetary system.

In addition to producing circulating coins, The Royal Mint has a long tradition of crafting commemorative and ceremonial coins. These special issues celebrate important events, anniversaries, and national achievements. Notable examples include the commemorative coins for the Olympics, royal weddings, and historical milestones.

Today, The Royal Mint continues to combine centuries-old craftsmanship with cutting-edge technology. It is renowned for its commitment to excellence, producing coins of exceptional quality and design. With its rich heritage, The Royal Mint remains a symbol of British numismatic expertise and the legacy of a minting institution that has shaped the nation's currency for centuries.

## The Trial of the Pyx

The Trial of the Pyx is an ancient and rigorous ceremony conducted by The Royal Mint to ensure the accuracy and integrity of the nation's coinage. Dating back over 700 years, it is one of the oldest judicial ceremonies. Beginning in the 13th century, the quality of the circulating coins produced by the Royal Mint came under increased scrutiny by the monarchy. Periodically, the then Master of the Mint was ordered to put aside a select number of coins, which could then be tested for fineness and composition against the official standards. This procedure would evolve into the historic Trial of the Pyx that remains an essential part of British numismatics even today.

The Trial of the Pyx gets its name from the boxes in which the coins are transported, which is derived from the Greek word meaning "wooden box." These wooden boxes were originally stored in Westminster Abbey in the Pyx Chamber. The composition of the coins was tested against samples from a trial plate, a thin sheet of metal produced in the official standard fineness. In order to pass the trial, the coins had to be of the same or higher quality compared to the trial plates. Several magnificent trial plates survive from the earliest era of the Trial of the Pyx and are housed in The Royal Mint Museum.

Since 1871, the annual Trial has been held at Goldsmiths' Hall and presided over by the Worshipful

Company of Goldsmiths. The total number of coins evaluated during the Trial of the Pyx varies each year depending on the number of coins produced by The Royal Mint. Some Trials have included more than 50,000 coins for evaluation, reflecting a proportional sampling of all the circulating, commemorative, and bullion coins produced. This number is just a small fraction of the more than 3.3 billion coins and blanks prepared by The Royal Mint during an average year.

The ceremony is conducted around a large wooden table in Goldsmiths' Hall at which sits the King's Remembrancer, jurors, and employees from The Royal Mint. The jurors are presented with 50-coin packets and then distribute the coins into a series of copper and wooden bowls, each of which designates a different type of testing. Coins placed into copper bowls are eventually taken for assaying by the Goldsmiths' Company, who has two months in which to conduct the evaluation.

A portion of the coins handled by jurors that are not sent for assay are returned to The Royal Mint's vaults to be cataloged. It is coins from this selection that Stack's Bowers Galleries and The Royal Mint are presenting to collectors through this historic auction presentation. Every coin bears distinct evaluation marks associated with the Trial of the Pyx, making each a truly unique treasure.

## The Worshipful Company of Goldsmiths

The Worshipful Company of Goldsmiths, commonly known as the Goldsmiths’ Company, is one of the ancient livery companies in the City of London. These livery companies are ancient guilds or associations that originated in the medieval period and were historically responsible for regulating their respective trades or crafts. As such, the Goldsmiths’ Company originated as a guild for goldsmiths and silversmiths and played a crucial role in regulating the quality of craftsmanship

relating to precious metals— including specifically the procedures of assaying and hallmarking. Today, the Goldsmiths’ Company’s most visible role involves their oversight of the proceedings of the Trial of the Pyx. However, like many livery companies, the Goldsmiths’ Company remains involved in charitable and educational activities including the training of individuals in the goldsmithing and silversmithing trades.

### Goldsmiths’ Hall

Goldsmiths’ Hall is a historic and prestigious building located in the heart of London near St. Paul’s Cathedral and serves as the headquarters of the Worshipful Company of Goldsmiths. Goldsmiths’ Hall has a rich history dating back to its original construction in the early 19th century, with the current building completed in 1835. The architecture of the hall is notable for its classical and neo-Gothic design, featuring grand interiors, high ceilings, heavy woods, and marble stair-

cases, reflecting the elegance and grandeur of its time. Goldsmiths’ Hall holds tremendous cultural and historical significance in the United Kingdom, serving as a symbol of London’s rich mercantile and craftsmanship history. Today, Goldsmiths’ Hall remains most closely associated with the annual Trial of the Pyx, which has been hosted at the venue since 1871.

## The Assay Master

The Assay Master holds a prestigious position within the Royal Mint, responsible for overseeing the accuracy, quality, and integrity of precious metals used in coin and medal production. They also ensure that The Royal Mint adheres to laws, regulations, and industry standards governing assaying, hallmarking, and the production of coins and medals. This role is closely tied to the centuries-old tradition of assaying, which certifies the purity of precious metals.

The Assay Master is actively involved in initiatives focused on research and development, as well as new minting technologies. This includes exploring new testing techniques, improving production efficiency, and addressing emerging industry challenges. They also attend industry conferences, collaborate with other mints, and provide expert advice on assaying and metal quality-related matters. Outwardly, the Assay Master represents The Royal Mint in official capacities and ceremonies, both domestically and internationally—among which is the historic Trial of the Pyx.

## The King's Remembrancer

The King's Remembrancer is a legal officer associated with the Royal Courts of Justice in the United Kingdom and holds a position of tremendous historical significance. The position embodies traditions that date back many centuries and is responsible for many administrative and ceremonial aspects within the monarchy. While the exact responsibilities have evolved over time, the role currently maintains a focus on legal proceedings and financial matters, acting as a conduit between the monarchy and the British legal system.

The King's Remembrancer often presides over significant ceremonial events including—most notably—the Trial of the Pyx. Acting on behalf of The Crown, the King's Remembrancer oversees the proceedings at Goldsmiths' Hall during the trial, ensuring proper conduct, maintaining standards, and contributing to the integrity of the coinage produced by The Royal Mint. The King's Remembrancer is instrumental in upholding both the legal and traditional aspects of the Trial of the Pyx, ensuring that the assessment of coin quality follows procedures with precision.

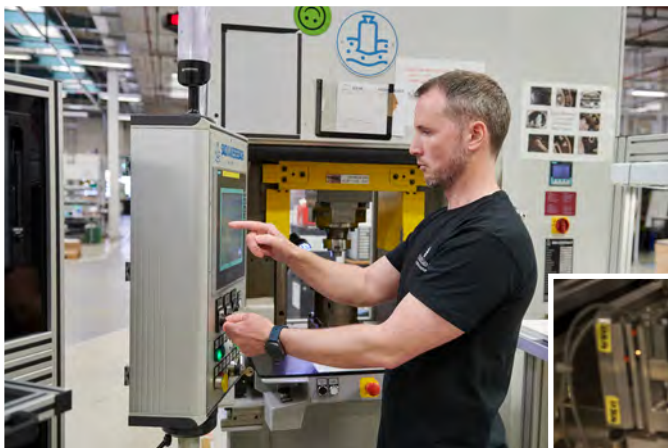

## The Royal Mint Production Team

**Graeme Smith, Assay Master for Queen Elizabeth II**—Graeme Smith began his role as the Queen’s Assay Master in 2013 and retired after a successful and prolific tenure in March 2023. At the most recent Trial of the Pyx in February 2023, Smith remarked that “It is an honor to be a part of one of the UK’s oldest judicial ceremonies, testing the quality and authenticity of the nation’s coinage. No other Mint across the world puts its coinage through such rigorous testing that ensures the highest standards are met and maintained in the minting of coinage.”

**Paul Morgan, Assay Master for King Charles III**—Paul Morgan assumed the role of King’s Assay Master in April 2023 following a long term career at The Royal Mint performing other duties. In discussing his new role, Paul Morgan remarked that “It is an honour to be appointed to the role of King’s Assay Master which ensures the integrity of The Royal Mint’s products and is as important today as it was in the time of Sir Isaac Newton.”

**Anne Jessopp, CEO of The Royal Mint**—Since joining The Royal Mint in 2008, Anne Jessopp has held several positions on the Board, including HR Director and Director of Consumer, before stepping into the role of CEO in 2018—the first female in the 1,100 year history of The Royal Mint to do so.

Spearheading the transformation of one of the UK’s oldest businesses, Anne’s leadership of The Royal Mint has seen her introduce an ambitious strategy to continue to grow the consumer facing divisions, helping to safeguard the business and employment for the future. As a result, The Royal Mint is now firmly delivering its strategy of reinvention, while retaining its unique heritage as The Original Maker of beautiful and authentic products and services. Also under Anne’s leadership, The Royal Mint has committed to becoming a leader in sustainable precious metals.

## Her Majesty Queen Elizabeth II

Queen of the United Kingdom from February 6, 1952 to September 8, 2022  
The longest reign of any British monarch and any female head of state in history

The reign of Queen Elizabeth II, the longest-serving monarch in British history, was marked by profound historical events, cultural shifts, and remarkable achievements. Born on April 21, 1926, Queen Elizabeth II ascended to the throne on February 6, 1952, following the death of her father, King George VI.

Throughout her reign, Queen Elizabeth II embodied grace, dedication, and unwavering commitment to her role as the head of state. She navigated the challenges and triumphs of a changing world, witnessing significant transformations in technology, society, and geopolitics. Under Queen Elizabeth II's leadership, the monarchy adapted to the modern era while preserving its historical traditions and constitutional role. Her reign witnessed the expansion of the British Commonwealth and the transition from empire to a more diverse and inclusive society. Her calm and compassionate response to national crises, such as the death of Princess Diana in 1997 and the COVID-19 pandemic, earned her widespread respect and admiration.

The Queen's commitment to public service was exemplified through her patronage of numerous charitable organizations and her active engagement in various philanthropic endeavors. She was a steadfast advocate for causes ranging from education and healthcare to the conservation of the environment. As the Queen advanced in age, the focus shifted toward securing the future of the monarchy and preparing the next generation of royals to take on leadership roles.

In 2022, Her Majesty The Queen made history by becoming the first British monarch to celebrate a Platinum Jubilee. In the seven decades since 1952, the world had seen her grow from a young queen crowned

in post-war Britain, into a widely respected Head of State and a loving great-grandmother. To celebrate this Platinum Jubilee, The Royal Mint issued a range of exciting special coins featuring bespoke commemorative designs. This auction offers examples of virtually every one of these special commemoratives, made all the more desirable by having gone through the 2023 Trial of the Pyx. For collectors, these unique Platinum Jubilee test pieces represent the ultimate mementos recognizing the Queen's unprecedented achievement.

Spanning more than seven decades, Queen Elizabeth II's reign has left an indelible mark on the United Kingdom and the world. Her reign represents a period of immense change, continuity, and steadfast dedication to duty. Queen Elizabeth II's legacy as a respected and beloved monarch will continue to shape the monarchy and inspire generations to come.

# His Majesty King Charles III

King of the United Kingdom from September 8, 2022 to Present

King Charles III was born on November 14, 1948, in London, England. He is the eldest son of the late Queen Elizabeth II and Prince Philip, Duke of Edinburgh. In his youth, King Charles III attended various schools in the United Kingdom and later went on to study at Gordonstoun School in Scotland. He then pursued

further education at the University of Cambridge and the University of Wales, where he studied archaeology and anthropology.

King Charles III has been involved in numerous charitable endeavors and has advocated for various causes. He established The Prince's Trust in 1976, which is an organization dedicated to supporting young people in education, training, and employment. Additionally, he has been an active supporter of environmental conservation and sustainable development, founding The Prince's Rainforests Project in 2007. Even prior to his ascension on September 8, 2022, King Charles III had taken on various official duties and roles on behalf of the British monarchy.

Having been heir apparent since the age of three, King Charles III is now the oldest monarch ever crowned in British history and brings to his sovereignty a lifetime of experience and wisdom to guide Britain into the future.

## Numismatic Guaranty Company (NGC)

Numismatic Guaranty Company (NGC) is based in Sarasota, Florida and since 1987 has certified over 60 million coins from all over the world. It is also the official grading service of the American Numismatic Association (ANA), the Professional Numismatists Guild (PNG), and the only coin collecting organization

chartered by the United States Congress. To recognize these important Trial of the Pyx coins, NGC developed a special label insert featuring bespoke graphics and a facsimile signature by The Royal Mint CEO Anne Jessopp, who was instrumental in the production of these historic coins.

## Welcome to the Stack's Bowers Galleries Offering of Treasures from the 2023 Trial of the Pyx

Dear Collectors and Investors,

I am honored and excited to welcome you to our auction of unique test coins from the 2023 Trial of the Pyx, presented on behalf of The British Royal Mint. This event is a historic milestone for numismatics, born of a partnership between America's most prestigious and accomplished numismatic auctioneer and the United Kingdom's oldest continually operating company and the second oldest mint in the world.

Following the successful sale of Royal Succession bullion coins on behalf of The Royal Mint in 2023, our firms have once again come together to present an unprecedented auction offering of some of the most elusive and desirable coins of the modern era. These special Trial of the Pyx test coins serve as tangible and captivating treasures connecting collectors to over seven centuries of British numismatic history.

We have also engaged with one of the leading certification services, Numismatic Guaranty Corporation (NGC), to provide grading expertise and custom holders for these important pieces.

Bidders in this sale will have the exclusive opportunity to acquire one, or several, of these historic coins which have otherwise been unavailable to collectors through public auction. Struck with care and precision by The Royal Mint and expertly evaluated during the 2023 Trial of the Pyx, these test pieces reflect the pinnacle of production standards for modern coinage around the world. Each lot presented in this important sale is an absolutely unique prize for collectors.

On behalf of the entire Stack's Bowers Galleries team, I wish you the best of luck in your bidding!

Sincerely,

Brian Kendrella

## Unique “Trial Plate” Gold Bars from the 2023 Trial of the Pyx

The Trial of the Pyx is one of the most historic and rigorous ceremonies used to evaluate a nation’s coinage. Critical to the efficacy of this evaluation are the standards against which the coins are tested and compared. Serving as the benchmark for these standards are metal trial plates that are produced in the official standard fineness from which samples can be taken to compare against the coins on trial. In order to pass the Trial of the Pyx, the coins have to be of the same or higher quality compared to the trial plates.

The trial plates are initially cast into one large rectangular sheet and then cut into smaller individual portions. The portions are held separately by several organizations and each piece has a distinctive shaped edge, which serves as an anti-fraud measure. When all the portions are brought back together for an occasion like the Trial of the Pyx, the edges can be matched up like the pieces to a jigsaw puzzle. This confirms that the portions all originated from the same sheet and have not been replaced with a lower standard of metal.

These trial plates are generally stamped or engraved with the details of the alloy and when the plate was produced. Historical plates also sometimes featured an impression from the die of a coin that was struck in that alloy. Several magnificent trial plates survive from the earliest era of the Trial of the Pyx dating back to at least 1477. These historic trial plates are housed in The Royal Mint Museum and evoke the timeless and mystical notions associated with the Trial of the Pyx.

To mark the historic nature of the 2023 Trial of the Pyx, a special set of bespoke Trial Plate gold bars was produced using gold sourced from the exact coins being assayed in the trial. These coins, issued in 2022, were significant due to the

presence of both Queen Elizabeth II and King Charles III on the obverses reflecting the change of monarchy partway through the year. Following assay testing, the gold from these coins was expertly crafted into bars that resemble the historic trial plates used in the Trial of the Pyx ceremony for centuries. These special bars represent the first time such treasures have been produced or offered publicly to collectors.

The three different styles of gold bars reflect the three primary levels of fineness used by The Royal Mint to strike gold coins, including 999.9 Fine, 999 Fine, and 916.7 Fine. A pair of bars was produced in each fineness and separately stamped with the effigy of each monarch including Queen Elizabeth II and King Charles III, echoing the die impressions sometimes featured on historical trial plates. The edges of the bars also fit together in the same manner that actual trial plates would, celebrating the mother-son relationship between the two monarchs. They also fittingly contain the very last coins struck under Queen Elizabeth II and the very first produced under King Charles III.

Each matching pair is housed in a premium presentation display case with a Certificate of Authenticity that features a handwritten signature by Anne Jessopp, Deputy Master Chief Executive of The Royal Mint. These sets are bespoke and truly unique, offering a rare opportunity to own the actual assayed gold from coins struck by The Royal Mint and tested as part of the Trial of the Pyx 2023. They also represent the first ever metals to be assayed under and reported to the new Monarch, King Charles III. Each set is a numismatic treasure of the highest order and destined to be the crowning jewel of the most sophisticated collection.

**Set of Two “Trial Plate” 999.9 Fine Gold Bars from the 2023 Trial of the Pyx. Queen Elizabeth II and King Charles III. 3,090.00g Total Gold Weight.** Containing over 3 kilos in gold, this bespoke set of “Trial Plate” bars represents an incredible treasure for a top-tier collector and grants access to over seven centuries of British numismatic history. The front of each bar is stamped with the monarch’s official coinage effigy including the final portrait of Queen Elizabeth II designed by Jody Clark and the current portrait of King Charles III by Martin Jennings. The Queen’s effigy was featured on many issues tested during the 2023 Trial of the Pyx, while the King’s effigy was specifically taken from the 2022 Sovereign coin. At the center is engraved the details of the bar and the circumstances surrounding its creation which reads:

This standard (commixed of 999.9 Parts of Fine Gold and 0.1 Parts of Alloy in 1000 Parts by weight) was independently tested as part of the Trial of the Pyx 2023 held at Goldsmiths’ Hall, London.

The backs of these bars have been hallmarked by the London Assay Office based at Goldsmiths’ Hall, which is itself identified by the Leopards Head hallmark. Also featured in this unique hallmark combination are the Sponsor’s initials (A.J.) Anne Jessopp, Deputy Master and Chief Executive of The Royal Mint, the traditional fineness symbol (gold), the millesimal fineness mark, the date letter mark and the King’s Head, which is a special Coronation commemorative mark.

Produced in 999.9 Fine Gold, these impressive trial plate gold bars were created using the exact metal sourced from coins tested during the 2023 Trial of the Pyx including the 500 Pounds Britannia coin, the 100 Pounds Rolling Stones coin, the 200 Pounds Her Majesty Queen Elizabeth II Memorial coin, and several other commemorative series struck to this incredibly pure 999.9 standard.

## Terms & Conditions – Showcase and Collectors Choice Auctions (cont.)

1. Auction Basics. This is a public auction sale (“Auction Sale”) conducted by bonded auctioneers, Stack’s Bowers Galleries or Stack’s Bowers and Ponterio (hereinafter referred to as “Auctioneer” and at times as “Stack’s Bowers”). Bidding in this Auction Sale constitutes acceptance by you (“Bidder”) of all the Terms of Sale stated herein. Bidders may include consignors who may bid and purchase lots in the Auction Sale consigned by the consignor or by other consignors pursuant to their consignment agreement with Stack’s Bowers (“Consignor” or “Consignors”). A Consignor that bids on their own lots in the Auction Sale may pay a different fee than the Buyer’s Premium charged to all other Buyers. Stack’s Bowers reserves the right to include in any auction sale its own material as well as material from affiliated or related companies, principals, officers or employees. Stack’s Bowers may have direct or indirect interests in any of the lots in the auction and may collect commissions. THE TWO PRECEDING SENTENCES SHALL BE DEEMED A PART OF THE DESCRIPTION OF ALL LOTS CONTAINED IN THE CATALOG. Where the Consignor has repurchased a lot and the lot is either returned to the Consignor or otherwise dealt with or disposed of in accordance with the Consignor’s direction, or pursuant to contractual agreement, Stack’s Bowers reserves the right to so note in the prices realized or to omit a price from the prices realized. Stack’s Bowers and its affiliates may bid for their own account at any auction. Stack’s Bowers and its affiliates may have information about any lot that is not known publicly, and Stack’s Bowers and its affiliates reserves the right to use such information, in a manner determined solely by them and for their benefit, without disclosing such information in the catalog, catalog description or at the auction. Bidder acknowledges and agrees that Stack’s Bowers and its affiliates are not required to pay a Buyer’s Premium, or other charges that other Bidders may be required to pay and may have access to information concerning the lots that is not otherwise available to the public. Any claimed conflict of interest or claimed competitive advantage resulting therefrom is expressly waived by all participants in the Auction Sale. Lots may carry a reserve (“Reserve”). A Reserve is a price or bid below which the Auctioneer will not sell an item or will repurchase on behalf of the Consignor or for Stack’s Bowers. Reserves may be confidential and not disclosed. The Buyer is the Bidder who makes the highest bid accepted by the Auctioneer, and includes the principal of any Bidder acting as an agent.

2. Descriptions and Grading. Bidder acknowledges that grading of most coins, currency and cryptocurrency tokens in this Auction has been determined by independent grading services, and those that are not may be graded by Stack’s Bowers. Grading of rare coins, currency and crypto tokens is subjective and, even though grading has a material effect on the value of the coins, currency and cryptocurrency tokens, grading may differ among independent grading services and among numismatists. Stack’s Bowers is not responsible for the grades assigned by independent grading services, and makes no warranty or representation regarding such grades. Bidder further acknowledges and agrees that grades assigned by Stack’s Bowers and lot descriptions are based solely upon an examination of the coins, currency and cryptocurrency tokens and are intended to identify coins, currency and cryptocurrency and note any perceived characteristics. However, coin grading and descriptions are subjective. Stack’s Bowers does not warrant the accuracy of such grading or descriptions, nor do they in any way form the basis for any bid. All photographs in this catalog are of the actual items being sold but may not be the actual size or to scale.

3. The Bidding Process. The Auctioneer shall have the right to open or accept the bidding on any lot by placing a bid on behalf of the Consignor or his or her agent; a Bidder by mail, telephone, Internet or telefax; or any other participant in the Auction Sale. Bids must be for an entire lot and each lot constitutes a separate sale. All bids must be on increment as established by the Auctioneer, or half increment (a cut bid). Non-conforming bids will be rounded down to the nearest half or full increment and this rounded bid will be the bidder’s high bid. No lot will be broken up unless otherwise permitted by the Auctioneer. Lots will be sold in their numbered sequence unless Auctioneer directs otherwise. All material shall be sold in separate lots to the highest Bidder as determined by the Auctioneer. Auctioneer shall have the right in its sole and absolute discretion to accept or decline any bid, establish bid increments, challenge any bid or bidding increment, to reduce any mail bid received, adjudicate all bidding disputes, to exclude any bidder and to determine the prevailing bid. The Auctioneer shall have the right, but not the obligation, to rescind the acceptance of any bid and place the lot(s) for Auction Sale again. Auctioneer’s decision on all bidding disputes shall be binding and final. For the mail and Internet Bidder’s protection, no “unlimited” or “buy” bids will be accepted. When identical bids are received for a lot, preference is given to the first bid received as determined by the Auctioneer. A mail bid will take precedence over an identical floor bid; a Floor Bidder, Telephone Bidder and Live Internet Bidder must bid higher than the highest mail bid to be awarded any lot. Cut bids are only accepted on bids greater than \$500 and each bidder may only execute one cut bid per lot. Bids will not be accepted from persons under eighteen (18) years of age without

a parent’s written consent which acknowledges the Terms of Sale herein and agrees to be bound thereby on behalf of the underage Bidder. The auction sale is complete when the Auctioneer so announces by the fall of the hammer or in any other customary manner.

THIS IS NOT AN APPROVAL SALE. Bidders who physically attend the Auction sale, either personally or through an agent (“Floor Bidders”) should carefully examine all lots which they are interested in purchasing. Bidders who bid by telephone, either personally or through an agent, or through our live auction software receive a similar benefit as Floor Bidders in being able to actively participate in the live Auction Sale (“Telephone Bidders” and “Live Internet Bidders”). Except as otherwise expressly provided in these Terms of Sale, NO PURCHASED ITEMS MAY BE RETURNED FOR ANY REASON. All prospective Bidders who examine the lot(s) prior to the Auction Sale personally assume all responsibility for any damage that Bidder causes to the lot(s). Stack’s Bowers shall have sole discretion in determining the value of the damage caused, which shall be promptly paid by such Bidder.

Certain auctions or auction sessions, will be conducted exclusively over the Internet, and bids will be accepted only from pre-registered Bidders.

STACK’S BOWERS IS NOT RESPONSIBLE FOR ANY ERRORS IN BIDDING. All Bidders should make certain to bid on the correct lot and that the bid is the bid intended. Once the hammer has fallen and the Auctioneer has announced the Buyer, the Buyer is unconditionally bound to pay for the lot, even if the Buyer made a mistake. Stack’s Bowers reserves the right to withdraw any lot at any time, even after the hammer has fallen, until the Buyer has taken physical possession of the lot. No participant in the Auction Sale shall have a right to claim any damages, including consequential damages if a lot is withdrawn, even if the withdrawal occurs after the Auction Sale.

4. Bidder Registration Required. All persons seeking to bid must complete and sign a registration card either at the auction or online, or otherwise qualify to bid, as determined in the sole discretion of the Auctioneer. By submitting a bid, the Bidder acknowledges that Bidder has read the Terms and Conditions of Auction Sale, the descriptions for the lot(s) on which they have bid, and that they agree to be bound by these Terms of Sale. This agreement shall be deemed to have been made and entered in California. The Bidder acknowledges that the invoice describing a lot by number incorporates the catalog and Terms of Sale. Person appearing on the OFAC list are not eligible to bid.

5. Buyer’s Premiums. A premium of twenty percent (20%) based upon the total amount of the hammer (minimum of \$20), will be added to all purchases of individual lots, regardless of affiliation with any group or organization (the “Buyer’s Premium”). A reacquisition charge may apply to Consignors pursuant to a separate agreement, which may be higher or lower than the Buyer’s Premium.

6. Payment. Payment is due immediately upon the fall of the auctioneer’s hammer. Payment is delinquent and in default if not received in full, in good funds, within fourteen (14) calendar days of the Auction Sale (the “Default Date”), without exception, time being of the essence. Unless otherwise agreed in writing prior to the Auction Sale, all auction sales are payable strictly in U.S. Dollars or Hong Kong Dollars. All invoices will be made in United States Dollars. If paying in Hong Kong Dollars, Buyer’s invoices will be credited with the amount of U.S. Dollars at the rate established by the Auctioneer at the time of the Auction Sale. Payments may be made by credit card, Paypal, Union Pay, check, wire transfer, money order and cashier’s check. Cash transactions will be accepted in the sole discretion of Stack’s Bowers, and if accepted, for any cash transaction or series of transactions exceeding \$10,000, a Treasury Form 8300 will be filed. Contact Stack’s Bowers for wiring instructions before sending a wire. Bank wires sent from a foreign bank are subject to an international bank wire fee of \$35. We accept payment by Visa, Mastercard, American Express, Discover or Paypal for invoices up to \$2,500, with a maximum of \$10,000 in any 30 day period. All payments are subject to a clearing period. Checks drawn on U.S. banks will be subject to up to a 10 business day hold, and checks drawn on foreign banks will be subject to a 30 day hold. Stack’s Bowers reserves the right not to release lots for which good funds have not yet been received. On any past due accounts, Stack’s Bowers reserves the right, without notice, to extend credit and impose carrying charges (as described below). Buyers agree to pay reasonable attorney’s fees and cost incurred to collect past due accounts. Any invoice not paid by the Default Date will bear a five percent (5%) late fee on the invoice amount. Buyers personally and unconditionally guarantee payment in full of all amounts owed to Stack’s Bowers. Any person submitting bids on behalf of a corporation or other entity, by making such bid, agrees to be personally jointly and severally liable for the payment of the purchase price and any related charges and the performance

of all Buyer obligations under these Terms of Sale and Stack's Bowers reserves the right to require a written guarantee of such payments and obligations. Bidders who have not established credit with Stack's Bowers must furnish satisfactory information and credit references and/or deposit at least twenty-five percent (25%) of their total bids for that Auction Sale session(s) or such other amount as Stack's Bowers may, in its sole and absolute discretion require before any bids from such Bidder will be accepted. Deposits submitted will be applied to purchases. Any remaining deposits will be promptly refunded, upon clearance of funds.

7. Sales Tax. Buyers will be charged all applicable sales tax unless a valid Resale Certificate has been provided to the Auctioneer prior to the auction. Should state sales tax become applicable in the delivery state prior to delivery of the property on the invoice, the Buyer agrees to pay all applicable state sales tax as required by the delivery state as of the shipping date. In the event any applicable sales tax is not paid by Buyer that should have been paid, even if not such tax was not charged or collected by Stack's Bowers by mistake, error, negligence or gross negligence, Buyer nonetheless acknowledges responsibility to pay such sales tax and remains fully liable for and agrees to promptly pay such taxes on demand, together with any interest or penalty that may be assessed by the taxing authority and agrees to indemnify and hold Auctioneer harmless from any applicable sales tax, interest or penalties due. Lots from different Auctions may not be aggregated for sales tax purposes.

8. Financial Responsibility. In the event any applicable conditions of these Terms of Sale herein are not complied with by a Buyer or if the Buyer fails to make payment in full by the Default Date, Stack's Bowers reserves the right, in its sole discretion, in addition to all other remedies which it may have at law or in equity to rescind the sale of that lot or any other lot or lots sold to the defaulting Buyer, retaining all payments made by Buyer as liquidated damages, it being recognized that actual damages may be speculative or difficult to compute, and resell a portion or all of the lots held by Stack's Bowers, in a commercially reasonable manner, which may include a public or private sale, in a quantity sufficient in the opinion of Stack's Bowers to satisfy the indebtedness, plus all accrued charges, and Stack's Bowers may charge a seller's commission that is commercially reasonable. More than one such sale may take place at the option of Stack's Bowers. If Stack's Bowers resells the lots, Buyer agrees to pay for the reasonable cost of such sale, together with any incidental costs of sale, including reasonable attorney's fees and costs, cataloging and any other reasonable charges. Notice of the sale shall be by U.S.P.S. Certified Mail, Return Receipt Requested to the address utilized on the Bid Sheet, Auction Consignment and Security Agreement or other last known address by Stack's Bowers. The proceeds shall be applied first to the satisfaction of any damages occasioned by Buyer's breach, then to any other indebtedness owed to Stack's Bowers, including without limitation, commissions, handling charges, carrying charges, the expenses of both sales, seller's fees, reasonable attorneys' fees, costs, collection agency fees and costs and any other costs or expenses incurred. Buyer shall also be liable to Stack's Bowers for any deficiency if the proceeds of such sale or sales are insufficient to cover such amounts.

Buyer grants to Stack's Bowers, its affiliates and assignees, the right to offset any sums due, or found to be due to Stack's Bowers, and to make such offset from any past, current, or future consignment, or purchases that are in the possession or control of Stack's Bowers; or from any sums due to Buyer by Stack's Bowers, its affiliates and assignees. In addition, defaulting Buyers will be deemed to have granted to Stack's Bowers, its affiliates and assignees, a security interest in: (x) the purchased lots and their proceeds, and (y) such sums or other items and their proceeds, in the possession of Stack's Bowers, its affiliates or assignees, to secure all indebtedness due to Stack's Bowers and its affiliated companies, plus all accrued expenses, carrying charges, seller's fees, attorney fees, and costs, until the indebtedness is paid in full. Buyer grants Stack's Bowers the right to file a UCC-1 financing statement for such items, and to assign such interest to any affiliated or related company or any third party deemed appropriate by Stack's Bowers. If the auction invoice is not paid in full by the Default Date, a carrying charge of one-and-one-half percent (1-1/2%) per month may be imposed on the unpaid amount until it is paid in full. In the event this interest rate exceeds the interest permitted by law, the same shall be adjusted to the maximum rate permitted by law, and any amount paid in excess thereof shall be allocated to principal. Buyer agrees to pay all reasonable attorney's fees, court costs and other collection costs incurred by Stack's Bowers or any affiliated or related company to collect past due invoices or to interpret or enforce the terms hereof or in any action or proceeding arising out of or related to the Auction Sale. Stack's Bowers reserves the right to assign its interest to any third party. To the extent that the Buyer for any lot consists of more than one person or entity, each such person or entity is jointly and severally liable for all obligations of the Buyer, regardless of the title or capacity of such person or entity. Stack's Bowers shall have

all the rights of a secured creditor under Article 9 of the California Commercial Code and all rights of the consignor to collect amounts due from the Buyer, whether at law or equity.

9. Shipping. It is the Buyer's responsibility to contact Stack's Bowers after the sale to make shipping and packaging arrangements. Due to the fragile nature of some lots, Stack's Bowers may elect not to assume responsibility for shipping or packing, or may charge additional shipping and handling. Stack's Bowers, in its sole discretion, may not ship to select countries. Lots indicated as being "framed" or that are specifically identified in the catalog are shipped at Buyer's risk. All taxes, postage, shipping, if applicable, handling, insurance costs, the Buyer's Premium, and any other fees required by law to be charged or collected will be added to the invoice for any lots invoiced to Buyer. All lots shipped to foreign countries will be billed an additional one-half percent (1/2%) for insurance (minimum of \$10). For any lots delivered outside the country where the auction is hosted, the declaration value shall be the item(s) hammer price plus its buyer's premium. Auctioneer shall not be liable for any loss caused or resulting from seizure or destruction under quarantine or customs regulation or confiscation by order of any government or public authority. Buyer shall be responsible for paying all applicable taxes, duties and customs charges for all lots delivered outside the country where the auction is hosted. All lots will be shipped FOB Destination, freight prepaid and charged back. Title and risk of loss pass to the Buyer at the destination upon tender of delivery. Acceptance of delivery constitutes acceptance of the purchased lots. Inspection of the purchased lots is not required for acceptance. Any and all claims based upon Buyer's failure to receive a purchased lot, Buyer's receipt of a lot in damaged condition, or otherwise related to delivery, must be received in writing by Stack's Bowers no later than the earlier of thirty (30) days after payment, or the date of the Auction Sale (the "Outside Claim Date"). As Buyers may not receive notification of shipment, it is Buyer's responsibility to keep track of the Outside Claim Date and make timely notification of any such claim. The failure to make a timely claim, time being of the essence, shall constitute a waiver of any such claim. Orders paid by credit card will only be shipped to the verified address on file with the credit card merchant.

10. DISCLAIMER AND WARRANTIES. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE IS MADE OR IMPLIED ON ANY LOT. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY LOT EXCEPT FOR WARRANTY OF TITLE, AND IN THE CASE OF TITLE, AUCTIONEER IS SELLING ONLY THAT RIGHT OR TITLE TO THE LOT THAT THE CONSIGNOR MAY HAVE AS OF THE AUCTION SALE DATE. ALL LOTS ARE SOLD "AS IS" AND WITH ALL FAULTS. PURCHASER HEREBY ASSUMES ALL RISKS CONCERNING AND RELATED TO THE GRADING, QUALITY, DESCRIPTION, CONDITION, AND PROVENANCE OF A LOT.

a. COINS, CURRENCY AND CRYPTOCURRENCY TOKENS LISTED IN THIS CATALOG AS GRADED AND ENCAPSULATED BY PCGS, NGC, ANACS, ICG, PCGS CURRENCY, PMG, PCGS BANKNOTE GRADING, CMC OR ANY OTHER THIRD PARTY GRADING SERVICE ARE SOLD "AS-IS" EXCEPT AS EXPRESSLY SET FORTH HEREIN AND MAY NOT BE RETURNED FOR ANY REASON WHATSOEVER BY ANY BUYER. ALL THIRD PARTY GRADING SERVICE GUARANTEES, INCLUDING AUTHENTICITY, ARE THE SOLE RESPONSIBILITY OF THE THIRD PARTY GRADING SERVICE AND NOT WARRANTIES OR GUARANTEES OF THE AUCTIONEER. BUYERS SHOULD CONTACT THESE THIRD PARTY GRADING SERVICES DIRECTLY WITH RESPECT TO ANY CLAIMS OR QUESTIONS THEY MAY HAVE CONCERNING THEIR GUARANTEES AND WARRANTIES. BUYERS ACKNOWLEDGE AND AGREE THAT AUCTIONEER IS NOT BOUND BY OR LIABLE FOR ANY OPINION OR CERTIFICATION BY ANY THIRD PARTY GRADING SERVICE.

b. In the case of non-certified coins, currency and cryptocurrency tokens that have neither been examined by the Buyer prior to the Auction Sale, nor purchased by the Buyer or Buyer's agent at the Auction Sale, if it is determined in a review by Stack's Bowers that there is a material error in the catalog description of a non-certified coin, currency, or cryptocurrency token such lot may be returned, provided written notice is received by Stack's Bowers no later than seventy-two (72) hours of delivery of the lots in question, and such lots are returned and received by Stack's Bowers, in their original, sealed containers, no later than fourteen (14) calendar days after delivery, in the same condition the lot(s) were delivered to the Buyer, time being of the essence. Non-certified coins, currency and cryptocurrency tokens that have been either examined by the Buyer prior to the Auction Sale or purchased by the Buyer or Buyer's agent at the Auction Sale, will not be granted return privileges, except for authenticity.

## Terms & Conditions – Showcase and Collectors Choice Auctions (cont.)

- c. All non-certified coins and currency are guaranteed to be genuine.
- d. All certified and non-certified cryptocurrency tokens are guaranteed to be genuine only. Auctioneer disclaims any guaranty of any kind with respect to cryptocurrency tokens, including, but not limited to: face value, the contents or existence of any accounts, wallets, or other physical, digital or other receptacles of value, the existence of a cryptographic private key, or the ability to fund any cryptocurrency. Actual cryptocurrency value is neither confirmed nor guaranteed by Auctioneer.
- If an item or items are returned pursuant to the terms herein, they must be housed in their original, sealed and unopened container.
- e. Late remittance or removal of any item from its original container or third party graded holder, or altering a coin constitutes just cause for revocation of all return privileges.
- f. Grading or condition of rare coins, currency and cryptocurrency tokens may have a material effect on the value of the item(s) purchased, and the opinion of others (including independent grading services) may differ with the independent grading services opinion or interpretation of Stack's Bowers. Stack's Bowers shall not be bound by any prior, or subsequent opinion, determination or certification by any independent grading service.
- g. Questions regarding the minting of a coin as a "proof" or as a "business strike" relate to the method of manufacture and not to authenticity.
- h. All oral and written statements made by Stack's Bowers and its employees or agents (including affiliated and related companies) are statements of opinion only, and are not warranties or representations of any kind, unless stated as a specific written warranty, and no employee or agent of Stack's Bowers has authority to vary or alter these Terms and Conditions of Auction Sale. Stack's Bowers reserves the right to vary or alter the Terms of Sale, either generally or with respect to specific persons or circumstances, in its sole discretion. Any variation or alteration shall be effective only if in writing and signed by an officer of Stack's Bowers authorized to do so.

i. Stack's Bowers is acting as an auctioneer. Title to the lots purchased passes directly from the Consignor to the Buyer. Accordingly, Stack's Bowers is not making, and disclaims, any warranty of title.

j. Bidders shall have no recourse against the Consignor for any reason whatsoever.

k. Bidder acknowledges that the numismatic and cryptocurrency token market is speculative, unregulated and volatile, and that prices may rise or fall over time. Stack's Bowers does not guarantee or represent that any customer buying for investment purposes will be able to sell for a profit in the future.

l. Bidder acknowledges and agrees that neither Stack's Bowers, nor its employees, affiliates, agents, third-party providers or consignors warrant that auctions will be unimpaired, uninterrupted or error free and accordingly shall not be liable for such events.

11. Waiver and Release. Bidder, for himself, his heirs, agents, successors and assignees, generally and specifically waives and releases, and forever discharges Stack's Bowers, and its respective affiliates, parents, officers, directors, shareholders, agents, subsidiaries, employees, managers and members and each of them, and their respective successors and assignees from any and all claims, rights, demands and causes of actions and suits, of whatever kind or nature, including but not limited to claims based upon Auctioneer's negligence, whether in law or equity, tort or otherwise, whether known or unknown, suspected or unsuspected (a "Claim"), which Bidder may assert with respect to and/or arising out of, or in connection with any challenge to the title to or authenticity of any goods purchased, the sale itself, any lot bid upon or consigned, and/or the auction, except where such Claim is otherwise expressly authorized in these Terms of Sale. It is the intention of Bidder that this waiver and release shall be effective as a bar to each and every Claim that may arise hereunder or be related to the Auction Sale, and Bidder hereby knowingly and voluntarily waives any and all rights and benefits otherwise conferred upon him by the provisions of Section 1542 of the California Civil Code, which reads in full as follows:

"A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR OR RELEASING PARTY DOES NOT KNOW OR SUSPECT TO EXIST IN HIS OR HER FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM OR HER MUST HAVE MATERIALLY AFFECTED HIS OR HER SETTLEMENT WITH THE DEBTOR OR RELEASED PARTY."

12. Disputes. If a dispute arises concerning ownership of a lot or concerning proceeds of any sale, Stack's Bowers reserves the right to commence a statutory inter-pleader proceeding at the expense of the Consignor and Buyer and any other applicable party, and in such event shall be entitled to its reasonable attorneys' fees and costs. Stack's Bowers reserves the right to cancel or postpone the Auction Sale or any session thereof for any reason whatsoever. No Bidder shall have any claim as a result thereof, including for incidental or consequential damages. Neither Stack's Bowers nor any affiliated or related company shall be responsible for incidental or consequential damages arising out of any failure of the Terms of Sale, the auction or the conduct thereof and in no event shall such liability exceed the purchase price, premium, or fees paid. Rights granted to Bidders under the within Terms and Conditions of Auction Sale are personal and apply only to the Bidder who initially purchases the lot(s) from Stack's Bowers. The rights may not be assigned or transferred to any other person or entity, whether by sale of the lot(s), operation of law or otherwise. Any attempt to assign or transfer any such rights shall be absolutely void and unenforceable. No third party may rely on any benefit or right conferred by these Terms and Conditions of Auction Sale.

Any dispute arising out of or related to these Terms of Sale, the Auction Sale or any lot, with the sole exception of actions by Stack's Bowers to collect amounts owed to it and other damages, shall be submitted to binding arbitration pursuant to the commercial arbitration rules of the American Arbitration Association, with any arbitration hearing to occur in Orange County, California. Absent an agreement of the parties, the arbitrator shall limit discovery to that which is necessary to enable the hearing to proceed efficiently. The arbitrator shall not have the power to award punitive or consequential damages, nor alter, amend modify any of the terms of this Agreement. The award by the arbitrator, if any, may be entered in any court having jurisdiction thereof. Each party shall pay one-half the costs of the arbitration. Bidder acknowledges and agrees that the competent courts of the State of California shall have exclusive in personam jurisdiction, subject to the requirement to arbitrate, over any dispute(s) arising hereunder, regardless of any party's current or future residence or domicile. Bidder further agrees that venue of the arbitration proceeding shall be in Orange County, California; and any court proceeding shall be in the Orange County Superior Court, in the State of California, and in each case waive any claim of Forum Non Conveniens. Bidder agrees that any arbitration or legal action with respect to this Auction Sale is barred unless commenced within one (1) year of the date of this Auction Sale. AUCTION PARTICIPANTS EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY.

13. General Terms. These Terms and Conditions of Auction Sale and the auction shall be construed and enforced in accordance with, and governed by, the laws of the State of California, regardless of the location of the Auction Sale. These Terms of Sale and the information on the Stack's Bowers' website constitute the entire agreement between the parties hereto on the subject matter hereof and supersede all other agreements, understandings, warranties and representations concerning the subject matter hereof. If any section of these Terms of Auction Sale or any term or provision of any section is held to be invalid, void, or unenforceable by any court of competent jurisdiction, the remaining sections or terms and provisions of a section shall continue in full force and effect without being impaired or invalidated in any way. Stack's Bowers may at its sole and absolute discretion, make loans or advances to Consignors and/or Bidders.

14. Chinese Translation. The Chinese translations are provided as a matter of convenience. In the event of a conflict, all English Terms and Conditions and lot descriptions take precedence and are binding.

Bidding in this auction sale constitutes unconditional acceptance by the Bidder of the foregoing Terms of Sale.

Please note: Transparent holders in which the auction lots are stored are to facilitate viewing and inspection of the lots and ARE NOT for long-term storage.

PCGS and NGC numbers provided are for bidder convenience only, we do not guarantee their accuracy. An incorrect PCGS or NGC number is not grounds to return a lot.
