TERMS OF SALE

1. All bids are to be per Lot; no Lots will be broken. In the event of identical bids on the same Lot, the Lot will be awarded to the first bid received. In the event of a dispute during floor bidding the auctioneer may at his discretion immediately put the Lot up for sale again.

2. All sales are strictly for cash in U.S. funds. Invoices must be paid within 5 days of receipt. Lots delivered in California are subject to state sales tax unless a resale permit is on file with us. Shipping, handling, and insurance charges will be added for Lots delivered by mail. A $2\frac{1}{2}$ % service charge will be added to all Master Charge sales, and 3% for Visa charges.

3. Bidders not known to us must furnish satisfactory references and/or a deposit equal to 25% of the bids submitted (which will be applied to purchases; any difference will be billed; any overage will be refunded.) We reserve the right to obtain payment in full before delivery of the Lots. Title does not pass until Lots are paid for in full.

4. No "buy" or unlimited bids will be accepted. No bids will be accepted from minors. The auctioneer and/or the cataloguer reserves the right to refuse any bid which, in our opinion, is not made in good faith or does not qualify credit-wise.

5. All items are guaranteed genuine.

6. We cannot be responsible for your errors in bidding, so check your bid sheet carefully. Please bid in even dollar amounts. All bids not in whole dollar figures will be rounded off to the lower whole dollar amount.

7. Auction sales are not approval sales. Any Lot may be examined before bidding. No Lot may be returned by a mail bidder without our permission in writing. Requests to return coins must be made in writing within 3 days of receipt of the coins.

8. No Lots may be returned for any reason by floor buyers (including those acting as agents for others). All floor sales are final.

9. Any claims involving errors in the catalogue or for other reasons must be made within 3 days of receipt of the coins. Bowers and Ruddy Galleries acts as agent for the various consignors and does not own the coins. For this reason, no claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the bidder and the consignor, without involvement or responsibility of Bowers and Ruddy Galleries and/or the cataloguers. In the event of a typographical error or attribution error or other error, the cataloguer reserves the right to withdraw any item from sale, or if the error is discovered at a later date, to refund the buyer's money without further obligation.

10. Printed prices, catalogue values, etc. are only estimates. Higher or lower valuations may prevail. In the United States series estimates are given only on particularly expensive and/or unusual Lots. We will gladly answer any other questions you might have.

11. Your submitting of bids in our sale constitutes your acceptance of the foregoing terms.

The Roy Harte Collection November 16-18, 1977 Bowers and Ruddy Galleries

Welcome to the Roy Harte Collection catalogue. Within the covers you'll find a rich diversity of ancient, world, and United States coins. This is a *collectors' sale*. While there are many scarcities and rarities sprinkled here and there, the catalogue is particularly rich in modestly priced coins, pieces in the range of under \$25 up to a few hundred dollars.

If you are a new collector, this sale will be an excellent introduction to buying by way of auction. Increasingly, a great percentage of numismatic transactions are taking place this way. And appropriately so. The public auction sale gives you the chance to buy at *your own price*. You pay the price you want to pay, not the price someone else wants you to pay!

It's a fact that while many bidders will attend this sale in person, by far the most bids will come from our clients, perhaps like yourself, who bid by mail. It's easy to participate in this way. At the end of the catalogue is a detailed article, "How You Can Bid Successfully by Mail," by Bob Korver, manager of our Auction Department. If you're new to mail bidding, read it. You'll learn quite a bit. And, you'll see that we act in your best interest, protecting your money just as if you were here "in person."

Roy Harte, whose name appears on the cover of this catalogue, has been a client and friend for many years. He is the owner of Drum City Enterprises of Hollywood, California. one of the state's most prominent musical instrument dealers. Among other things, he has been fascinated by coinage of the year 1873. Part of his consignment in this volume contains several hundred coins from that long-ago time.

Ancient coins in the Roy Harte Collection catalogue include a nice selection of Greek and Roman issues, highlighted by the classic dekadrachm of Syracuse, which is considered to be one of the world's most beautiful coins.

Gold coins of the world come next. Afghanistan, Australia, Austria, Bahamas, Belgium, and so on . . . you'll find them listed in alphabetical order. You'll find a wide variety of things—from a curiously misstruck Bahamas \$50 piece of modern vintage, 1973, to classic gold doubloons, gold coins of Great Britain, Newfoundland, Romania, and many other countries—literally something for everyone.

Among other coins of the world you'll have first bidding chance on a nice selection of British coins, including several Gothic crowns, a beautiful offering of Philippine pieces, and a number of rare crowns.

Then come United States coins from colonials onward. Among colonials you'll find several Massachusetts silver coins, some Washington scarcities, and others. Half cents include an outstanding 1793, an 1840 Proof, and other desirable picces. Cents include the classic 1792 Birch cent, a nice 1793 Chain AMERICA issue, two 1794 Starred Reverse coppers, and many more. Small cents feature a pair of 1856 flying eagles, many nice Indian cents, and a modest selection of Lincolns. Then there are some desirable 2c and 3c issues.

Silver coins of the U.S.A. include scarce dates as well as type set coins. Half dimes, dimes, quarters, and half dollars—there's something that will surely eatch your eye.

From the Fairfield Collection, the subject of our recent (October 6-8) sale, come many outstanding silver dollars. For example, the selection beginning with Lot 2870 is rather unbelievable, and even this might be an understatement! The Fairfield Collection, which cost the consignor \$3,700,000,00, is the most valuable rare coin collection ever to be sold at unrestricted public auction sale. Portions of this consignment will appear in our catalogues over a period of time.

Gold coins include many scarce and rare issues. Whether you're searching for a rare date or a scarce design type, check this offering carefully for pieces of particular interest to you. You can also take your piek of many beautiful commemorative coins and, rounding out the sale, some very nice early Proof sets of the 19th century.

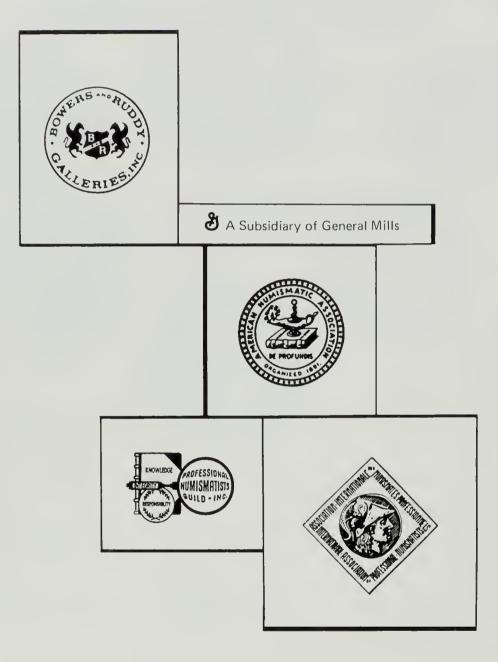

The Roy Harte Collection sale will be held at the Sheraton-Universal Hotel in North Hollywood (Los Angeles). This is located near the world-famous attraction, Universal City-showease of musical, movie, and TV talent. Bring your family. They can enjoy the sights while you're bidding on coins!

Opportunity knocks but once. There will be many really great buys in this sale, and hundreds of our bidders will be delighted! If you bid, you may not win all of the lots you bid on, but chances are you'll win some of them. However, if you don't bid it's for sure you won't make any good buys. Why not participate? As mentioned, you can bid on coins and buy them at your own price. In this way you have the coins you want at the prices you want to pay. In fact, some of them are apt to be less than you want to pay, for we'll save you money whenever possible!

The catalogue is in your hands. Here at Bowers and Ruddy Galleries we've done our part. Now it's up to you. Plan to participate in this beautiful sale—either in person or by mail. Either way, many wonderful opportunities beckon! Thank you for your interest. And, good luck!

Sincere

555 1964 Specimen dollar. Elizabeth II. Confederationcommemorative. Full Proof surfaces with frosty devices. Superb brilliant specimen with a few faint hairlines. In red (unofficial) case. (\$250-\$350)

556 1964 Specimen dollar. Another as preceding. This coin has the same Proof surfaces and frosty devices. Superb brilliant specimen with one unfortunate 4 mm surface scratch on obverse field by Elizabeth's forehead. A few faint hairlines. In red (unofficial) case. (\$225-\$325)

- 557 Rare 1967 pattern. "All denominations for 1967 bore Confederation commemorative reverses designed by Alex Colville. During 1966, trial production runs were made with dies of the new designs. Those for the dollar had flat fields; the coins did not strike up well, so new dies with convex fields (giving concave or dished fields to the coins) were prepared. Almost all of the flat fields dollars were apparently melted. Apart from the fields, the initial designs can be distinguished from the adopted ones by the position of the legends relative to the rim beads." This is quoted from *Coins* of *Canada* by J.A. Haxby and R.C. Willey. Apparently a few survived. This is a true contemporary rarity and a must for the Canadian dollar specialist. Choice Uncirculated pattern dollar with frosty devices. Some roughness on hair and shoulder. In black (unofficial) case. Should realize \$2,000+.

Counterstamps

Separatist movements against Spain began in the colonies around 1810. Most of the coinage used in the Philippines during this period came from Mexico and South America. Spanish authorities were fearful that usage of the insurgent countries' coins could imply that they were recognized by Spain and so, in 1828, a series of counterstamps appeared. The following thirteen lots consist of an extensive offering of these interesting pieces.

Stone Money from Yap Island --Part of the U. S. Trust Territory of the Paeifie-

1048 Yap Islands. Stone money weighing approximately 60 pounds and of roundish rectangular shape. Measures 2½ inches at thickest point (by center hole), and approximately 17 x 20 inches at narrowest and widest points. One side is dark gray, the other tan. Large center hole, about 2½ inches in diameter, carefully made. Stone in excellent condition. Age estimated by the consignor (see note below, last paragraph) to be pre-1870. Very few examples of stone money—possibly the most famous of the odd and curious monies of the world—have been removed from the Yap Islands, and this is the first we have sold at auction. Our estimate may be on the low side. (\$500-\$1000)

> Historical note: The ase of money made of hard, imported stone dates back handreds of years in the four Yap Islands, which are part of the western Caroline Islands in the western Pacific Ocean midway between Japan and Aastralia (and some 7,000 miles from Los Angeles). Tradition holds that Yap Island chiefs, conscious of the need for some darable mode of trade and having eliminated sach local island commodities as seashells and wood (for these were available to all), elected to import large stones of special hardness from the Palau Islands; this stone was not uative to Yap, and the canoe trip to Palau was an arduoas 225 miles each way, making each of the special stones precious.

> The stone itself possesses characteristics which reminded the Yap Islanders of the one thing which all considered of the greatest beauty; it was prized for its everlasting quality and becaase it was impossible to obtain. The moon's brilliance is indeed resembled in this crystalline limestone imported from Palaa. These "moonstones" were broaght rough-hewn to

Yap, where craftsmen smoothed each into a more or less round, moonlike shape. The center hole (drilled on Palau at the quarry for case of transport to the Yap canoes) was cut to accommodate a wooden carrying pole. Stone money is known to weigh up to several tons and to measure as much as 14 feet in diameter-making the specimen offered here "small change," in a manner of speaking.

As Pacific islanders kept their history alive by word of mouth, this account is the stuff of myth, but it is the story told by present Yap Islanders to our consignor, William R. Elwell, while he was Peace Corps Director for Yap and Paha Distrists of Micronesia. His stone money originated in the Rull Manicipality of Yap, largest of the islands in the groap. Mr. Elwell has volunteered to pass on the mysterious story of O'keefe, which dates this specimen, to the next owner upon request (the aaction firm will forward the purchaser's inquiry to Mr. Elwell after the sale).

SECOND SESSION

U.S. Colonial Coins

2001 1652 Massachusetts. Oak Tree shilling. Noe-1. An attractive Fine condition, although some weakness as struck. Weight: 65.8 grains. A pleasing example of this historic silver colonial.

2002 1652 Massachusetts. Pine Tree threepence. Noe-36. Obverse About Fine; reverse Very Fine. Weight: 18.8 grains.

2003 1652 Massachusetts. Pine Tree shilling. Small planchet. Noe-16. VF-EF, small scratch on the obverse. Weight: 77.5 grains. The Pine Tree shilling is one of the best known and most popular types of early U.S. colonials. While the date 1652 appears on most of the Massachusetts silver coinage, it is known the Pine Tree issues were struck well after that date (the late 1680s). Due to pressures from Great Britain, the coiners felt it much safer to continue the use of the 1652 date as the years rolled by.

> Note: For those of you interested in learning more about these fascinating Massachusetts silver coins, we direct your attention to the recently-released reprint of Sydney P. Noe's "The Silver Coinage of Massachusetts," printed by Quarterman Publications. In addition to specialized die variety descriptions, there is a wealth of information concerning the minting of these colonial coins.

- 2004 (1688) Mark Newby or Saint Patrick's farthing (1/4 penny). Very Fine, somewhat porous. An attractive example of this interesting coin. (See page 17 of the *Guide Book* for a short history).
- 2005 1722 Rosa Americana penny. Utile Dulci spelling. Very Finc.
- 2006 1723 Rosa Americana two pence. Obversc Fine; reverse Very Fine. Small mark above head.

2007 1723 Wood's halfpenny. Brown Uncirculated, minor planchet crack as struck. Pleasing medium brown color with lovely surfaces.

See Color Photo

- 2008 1760 Voce Populi farthing. Large letters. EF-AU, light clipping at top. The farthing-sized coin is much rarer than the usually-encountered halfpenny.
- 2009 1760 Voce Populi farthing. Another of this scarce coin. Large letters, Fine condition.

2010 1773 Virginia halfpenny. Periods variety. Choice Brilliant Uncirculated with attractive mint red. Many years ago a small hoard of Virginia halfpennies surfaced. It is from this group that the few known Uncirculated pieces trace their heritage. This well struck, Choice BU coin should be seriously considered for acquisition.

2011 1773 Virginia halfpenny. Period after GEORGIUS as last. Brilliant Uncirculated, well struck and bright lustre. Another lovely coin.

BOWERS AND RUDDY GALLERIES – FOR QUALITY AND VALUE -Page 65-

2012 1773 Virginia halfpenny. Period variety, as last. Brilliant Uncirculated.

- 2013 1778-9 Rhode Island Ship token. Brass. No wreath variety. VF-EF, a few faint, old scratches on the obverse rim but these are barely noticeable. Nice fields and color. Scarce.
- 2014 1778-9 Rhode Island Ship token. Brass. With wreath below ship. Very Fine, some rim nicks.

Rare 1783 Chalmers Threepence

See Color Photo

- 2015 1783 Chalmers threepence. Issued by John Chalmers of Annapolis, Maryland. Very few of Chalmers' coins exist today. This threepence is in Fine condition, having a few old scratches here and there, but nothing easily visible. The threepence is the smallest denomination Chalmers had struck. It is also rarer than some of the other issues.
- 2016 1785 Vermont. Vermonts spelling. Ryder-2. Fine, some light planchet defects. (Often, Vermont coins were struck on defective planchets. Since defect-free coinage is virtually unobtainable, the light striation defects should not weigh too heavily when judging the Vermonts).
- 2017 1785 Vermont. Variety as last. Ryder-3. Very Fine, weakness of strike in areas (including date). Attractive dark brown planchet.
- 2018 1786 Vermont. Vermontensium spelling. Ryder-6. Very Fine, some planchet defeets as struek.
- 2019 1786 Vermont. Duplicate. Ryder-6. G-VG.
- 2020 1786 Vermont. Baby head. Ryder-9. One of the most popular die varieties in the Vermont series. The Guide Book plate specimen is one of the most remarkable specimens in existence. Usually Ryder-9 Baby head is poorly struck and often on defective planchets. While the present coin does not approach the quality of the Guide Book coin, it is still a pleasing Very Good specimen with characteristic weak areas.
- 2021 1786 Vermont. Bust right. Ryder-11. Very Good.
- 2022 1787 Vermont. Britannia reverse. Ryder-13. Fine.
- 2023 1788 Vermont. Bust right. Ryder-25. Fine.

Our lively and interesting free brochare, "How to Sell Your Coins for the Best Price," tells you everything you've wanted to know about auctions. Write for it!

- 2024 1787 Connecticut Mailed bust, left. Miller 9-E. Error coin! Double strike. The second strike being 80% off center. You must see this beauty to believe it. Extremely Fine.
- 2025 1787 Connecticut. 26-a.1. Draped bust left. Rarity-5. About Fine.
- 2026 1787 Connectient. Draped bust left. 16.6-NN.2. Rarity-6. A very scarce die variety. Very Good.

2031 1787 Massachusetts half cent. AU, some light surface marks and rim nicks. Well struck.

Popular 1787 New York Excelsior Rarity

- 2032 1787 New York Excelsior copper. Very Fine, plugged at 11:00 and retooled to strengthen the details. Obverse New York Coat of Arms; reverse wingspread eagle. Here is a perfect opportunity to acquire this very rare colonial at a fraction of the price of the usual (non-plugged) coin.
- 2033 1787 Nova Eborae. Figure facing right. Extremely Fine, 5% off center and with tiny mint clip. Date plainly visible. Pleasing surfaces and medium brown color.

-Page 66-

- 2034 (1785) Bar cent. Design supposedly copied from a Continental button! One of the most popular colonial coins. Very Fine, some corrosion. The coin was first seen in circulation in New York during November 1785.
- 2035 1789 Mott token. Thin planchet. Early die state from perfect dies. Extremely Fine, dig (planchet defect) on obverse. Pleasing, inexpensive example of this token.

2036 1787 Fugio cent. United at left, States at right. Choice Brown Uncirculated. A couple die striae on reverse. Extremely well struck for this issue. All legends clear. The Fugios were the first semi-official coins struck for our fledgling government. Traces of mint red in the protected areas give an added bonus.

- 2037 1795 Talbot, Allum & Lee cent. Lettered edge. Choice Brilliant Uncirculated, prooflike fields. Firey mint red. One of the highest-quality examples of this type to come on the market in some time. Perfect for a high-quality collection of portfolio.
- 2038 1783 Georgius Triumpho. Very Fine. Often considered as a commemorative to the success of the Americans (and George Washington in particular) during our Revolutionary War.
- 2039 1783 Washington draped bust. Copper restrike with engrailed edge. Choice toned Proof. Attractive medium brown surfaces.

2040 1791 Washington large eagle cent. Well struck and quite attractive (both from a design standpoint as well as gradewise): Brown Uncirculated, tinges of red. A few dark toning spots on the obverse.

Renown 1792 Washington Half Dollar

2041 1792 Washington half dollar. Small eagle reverse. Copper. Plain edge. Struck on smaller than normal planchet with resultant lightness of impression on the obverse details and incompleteness of the border inscriptions. The obverse is G-VG (mostly due to striking as noted). The reverse is Very Fine.

> The importance of the 1792 Washington half dollar is historic. In its original form the Mint Act of April 2, 1792, stipulated that the portrait of the president would grace the obverse of the American coinage. When the legislation was introduced into Congress by Robert Morris the bill was accompanied by pattern half dollars-silver pieces for the senators and copper pieces for the House of Representatives members. Well known authority Don Taxay relates that the copper impressions were struck in January 1792 in the Coach House on 6th Street, near Chestnut, in Philadelphia. The designs were engraved by 23-year-old Peter Getz of Lancaster, who hoped to secure the post of mint engraver. Date numerals and lettering were punched by Robert Birch (see Lot 2070 of this sale). Congress objected to the monarchial nature of the Washington portrait, and the legislation was amended to provide for allegorical representations of Liberty.

Rare WASHINGTON BORN VIRGINIA Cent

2042 (1792) WASHINGTON BORN VIRGINIA cent. Obverse with portrait of George Washington and the inscription: WASHINGTON BORN VIRGINIA FEB.11.1732. Reverse with an abbreviated biography of Washington in 10 lines: GENERAL / OF THE / AMERICAN ARMIES / 1775 / RESIGNED / 1783 / PRESIDENT / OF THE / UNITED STATES / 1789.

Very Fine condition, some old scratches visible under the medium brown toning. The reverse is fully readable and is about a tie in quality with the *Guide Book* plate coin. A lovely example of this rarity.

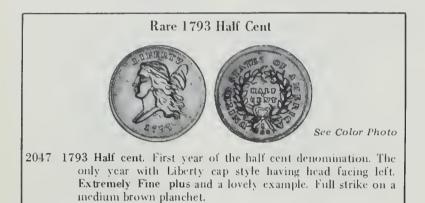

- 2043 (1800) Washington Funeral medal. Struck in silver. Fine, holed as usual.
- 2044 (1800) Washington Funeral medal. Pewter. Baker-166. Very Fine, holed at top. Designs as preceding.
- 2045 (1832) Washington medal. Baker-160. Restrike c.1858. Copper, thick planchet. Centennial of Washington's birth. Choice Uncirculated.

Bowers and Ruddy Galleries - U.S. Colonials; Half Cents

2046 (1832) Washington medal. B-160 as last. Restrike from cracked dies (c.1858). Tin, thin planchet. Commemorates hundred th anniversary of birth of Washington. Uncirculated.

U.S. Half Cents

2048 1797 1 above 1. Plain edge. Interesting die blunder – perfect for a type set. Extremely Fine some weakness in strike from 4:00 to 6:00 on the reverse. This is due to collapse in the die and is typical of the 1 over 1 variety. Attractive medium to dark brown color. Pleasing surfaces.

- 2049 1797 Dramatic strike of large cent die on a half cent. Very Good condition. Both obverse and reverse of the half cent show the portion of the large cent. AME of AMERICA is clearly visible on the reverse. An extreme rarity for few of the early U.S. coins escaped the inspector's wary eye.
- 2050 1802/0 Newer reverse. Good.
- 2051 1804 Plain 4, stemless wreath. Brown Uncirculated.
- 2052 1804 Plain 4, stemless as last. Another lovely brown Uncirculated coin. Early draped bust U.S. coins are scarce in Mint State grade. The half cents are the least expensive, even though they are very scarce. You might consider one of these before their true rarity becomes generally known!

2053 1804 Crosslet 4, stemless. Brown Uncirculated.

- 2054 1804 Spike chin. Interesting slip by the engraver gives Miss Liberty a jutting goatee! Brown Uncirculated.
- 2055 1808 AU, somewhat softly struck in centers (as often seen on this date). 1808 is very scarce in higher conditions. Half cent) collectors usually have to wait awhile before acquiring thisoue.
- 2056 1826 Brown Uncirculated, cleaned once and now toning.
- 2057 1828 13 stars. Choice brown Uncirculated. An excellent type coin.
- 2058 1835 Choice red and brown Uncirculated. Attractive.

Rare Proof 1840 Half Cent

- See Color Photo
- 2059 1840 Half cent. Second restrike. Choice Proof, attractively and delicately toned. All of the half cents in the 1840s are very, very rare. The only reason they are still reasonably priced (\$1200-\$1600 each) is that collectors for them are also rare. Add only a few avid collectors seeking a date set of 1840 issues and the supply will dry np immediately. The restrikes were made in the late 1850s. Only a few dozen specimens of each date were struck (counting both originals and restrikes together). They are indeed bargains when compared to higher priced U.S. coins of larger mintages.

- 2060 1851 Choice Brilliant Uncirculated. Small toning area on Miss-Liberty's temple, otherwise bright, blazing mint red throughout.
- 2061 1851 Choice red and brown Uncirculated.
- 2062 1853 Choice brown Uncirculated. Attractive type coin.
- 2063 1853 Choice brown Uncirculated. Duplicate.
- 2064 1854 Choice brown Uncirculated.

- 2065 1855 Choice Brilliant Uncirculated. Full mint hustre, beginning. to mellow a warm, dcep red.
- 2066 1855 Choice red and brown Uncirculated. 40% original mint red. Lovely.
- 2067 1855 Choice brown Uncirculated.

-Page 68-

2068 1856 Borderline Uncirculated. Well struck.

2069 1857 Last year of half cent. AU.

U.S. Large Cents

2070 1792 Birch cent. Issued in 1792, the first year of the Philadelphia Mint's operation, the Birch cent is one of the most famous of all American coins. Often a span of many years will pass between auctions of this coin on the numismatic market. The present coin has a Fine obverse and a Good reverse, the difference being largely accounted for by the way the coin was struck. The surfaces present a pleasing light brown color.

2071 1793 Chain America cent. Periods after LIBERTY and date. S-4. Extremely Fine, pleasing fields and dark brown color. Of interest and importance as the first year of the large cent series. For the large cent specialist this coin represents a wonderful opportunity to acquire one of the nicest chain cents available on the market. A spectacular type eoin. Should attract spirited bidding.

2072 1793 Wreath cent. Vine and bars edge. S-5. VF-EF, somewhat granular, but nicely struck and pleasing medium to dark brown color. Worthy of a classic collection.

Bowers and Ruddy Galleries = U.S. Half Cents; Large Cents

Attractive 1793 Wreath Cent

2073 **1793 Wreath cent.** Vine and bars edge. S-6. Fine, some edge bumps, but these are not large. Medium brown color.

Third 1793 Wreath Cent

2074 1793 Wreath cent. Vine and bars edge. The third wreath cent we offen. S-9. Very Good, clear sharp date and details. Somewhat porous surfaces, as often found on early U.S. coppers. The mint had to take whatever eame along. Often very poor quality copper came in to it. Impurities in the metal reaet with the atmosphere giving anywhere from a colorful patina to black surfaces, to granularity. Despite the light porosity, the present 1793 is rather pleasing and would make a nice addition to a type set.

2075 1794 S-48. The "Starred Reverse." F-VF, very dark fields and some light pitting on the reverse. Legends and date clear.

The starred reverse is a famous diecutting variety, its origin is still a matter of speculation! Some consider it a pattern issue, but others feel the circle of 94 tiny stars among the denticles of the reverse was "the result of the whim of an idle hour at the mint" by some anonymous, off-duty diecutter.

A Second 1794 Starred Reverse

2076 1794 S-48. The "Starred Reverse." A most unusual occurrance! Rarely does even one S-48 appear on the auction block. We're proud to offer a second specimen for your bidding! The present coin is Fine on the obverse and Good on the reverse. Most S-48s come with the reverse more poorly struck than the obverse. Here is a case in point. Most of the reverse stars are plainly visible. If you were unsuccessful on the previous lot, try this one.

Intriguing 1795 Jefferson Head Cent

2077 1795 Jefferson head cent. S-80. Another of the anomalies in the United States cent series. Though the portrait bears a resemblence to Jefferson, its origin is shronded in mystery. Condition is Fine, with several rim bruises. Pleasing medium brown color.

2078 1795 Plain edge. Variety with ONE CENT centered in the wreath. Attractive Extremely Fine with nice medium brown color.

2079 1796 Liberty cap. All 1796s are scarce. This coin grades in the upper ranges – it is AU. However, someone long ago added light pin scratches across Miss Liberty's face. Otherwise the coin is immaculate. Medium brown color, pleasing fields.

2080 1797 Gripped edge variety. One of the more storied large cents having a curious edge device (probably acquired at the time of striking). Extremely Fine, plus with light brown color. Some portions suggest an AU grade.

2081 1798/7 Overdate. Variety S-152. 1798/7 is the first overdate in the large cent series. All overdate U.S. coins have been gaining in popularity. Most, like the present coin, are scarce. EF-AU, attractive chocolate color and nice fields. Worthy of a high quality collection.

- 2082 1798 Second hair (with small added curl). Third reverse. Extremely Fine, granular surfaces.
- 2083 1800/179 Overdate. Another attractive overdate large cent. Extremely Fine, medium brown color. All details, including the overdate feature, sharp.

- 2084 1802 AU. The perfect, high grade type coin. Well above average for an early draped bust cent.
- 2085 1802 Extremely Fine, green patina. Another type piece.

- 2086 1804 Large cent. Struck from perfect dies. Dark brown color. Fine condition. 1804 has always eluded collectors. When found, it is usually impaired or in low grade. This Fine coin should be considered as a lovely representative.
- 2087 1804 Restrike from about 1860. Brown Uncirculated.

The 1804 Restrikes were privately issued from genuine mint dies. The demand for this date, from collectors in the mid-1800s, caused an enterprising collector to falsify a discarded 1803 obverse and combine it with a post-1816 reverse! The resultant mule is now one of the interesting collectibles.

- 2088 1810 AU, medium brown color. Just a mark or two from having perfect surfaces. A short-lived type that is on most collectors' want lists.
- 2089 1818 Coronet head design. Red and brown Uncirculated. Probably from the celebrated Randall Hoard of the late 1800s (in which a keg of 1817-1820 large cents surfaced).
- 2090 1818 Another. Red and brown Uncirculated. Much mint red. A touch lightly struck on Miss Liberty's brow.
- 2091 1818 Brown Uncirculated. Glossy dark brown color.
- 2092 1819 Large 9. Brown Uncirculated. Nice medium brown surfaces.
- 2093 1820 Large cent with Washington/Lafayette counterstamps. A few dozen U.S. coins were counterstamped in the year 1824. Most seen today are half dollars and large cents. The present cent is Very Fine with a hole (likely used with a ribbon through the hold). Many old-time numismatists consider the Washington/Lafayette pieces to be the first true American commemorative coins!

- 094 1821 Extremely Fine, a few marks. Low mintage of 389,000. Most large cents in this cra had mintages well over 1 to 2 million.
- 095 1823/2 Overdate rarity. The 1823s, along with the previous 1821, are the searcest Coronet large cents. Mintage dropped drastically again in 1823. Of added interest is the clear overdate feature for this year. Extremely Fine, perfect! Light brown surfaces without major impairments. Well struck, also.

- 096 1823/2 Overdate. Extremely Fine. Scarce this nice.
- 097 1823 Restrike. Brown Uncirculated.
- 098 1823 Restrike. Duplicate. Brown Uncirculated.
- 199 1829 Borderline Uncirculated, lustrous. Perfect chocolate brown color.
- 100 1836 Choice light brown Uncirculated. Lovely.
- 101 1837 Plain hair cord. Medium letters. Borderline Uncirculated. Lustrous.

- 02 1839 Type of 1840. Choice brown Uncirculated. An important coin, underrated this nice.
- 03 1842 Small date. Brown Uncirculated.

Very Rare and Very Beautiful 1849 Proof Large Cent

- 04 1849 Choice Proof. 1849 is seldom found in Uncirculated condition. This one is a Choice Proof! Lustrous rich chocolate brown. Excellent strike having full square rims. A true rarity (R-7) in American numismatics.

- 2122 1857 Flying cagle. Brilliant Uncirculated.
- 2123 1857 Flying eagle. Brilliant Uncirculated, average quality strike-wise. Because of the hard copper-nickel alloy, weak strikes occur if the die pressure is not up to par. In the present coin, the obverse legends are somewhat weak. Fully BU, however.

Your friends in the rare coin business.

2139 1868 Choice Proof, medium reddish toning. Interesting in the the reverse (or is it the obverse) is rotated 180 degrees fronormal alignment. In fact, half of all 1868 Proofs seen a rotated. While this doesn't alter the value of the coin, it doadd something of interest.

2140 1868 Choice Brilliant Proof. Reverse rotated 180 degrees, as la:

- 2141 1869 Brilliant Proof. One of just 600 struck in Proof.

- 2188 1871 Choice Brilliant Uncirculated.

2189 1872 Choice Brilliant Proof. Third rarest date in the series.

Bowers and Ruddy Galleries U.S. Silver 3c; Nickel 5c

- 2244 1866 Rays. Brilliant Uneirenlated, lightly struck in the centers. A nice coin, nonetheless. Early nickel-alloy coins of the U.S. often were a bear to the mint people. Their steel dies weren't up to the task of striking this hard metal. Either the die pressure had to be turned up high (shortening the life span of the dies) or the pressure was put lower to enhance the life span but struck weakly defined coins. As time went on, improvements in coin dies helped. But, even today, take a look at a Jefferson nickel. See any steps? Nickel is a hard, hard metal.
- 2245 1867 No rays. Choice Brilliant Proof.
- 2246 1868 Gem Brilliant Uncirculated. Lustrous.
- 2247 1869 Choice Brilliant Proof. 600 struck.

- 2251 1876 Choice Brilliant Proof, light toning.

Choice Proof 1877 Rarity

- 2252 1877 Choice Brilliant Proof. Small Proof-only coinage this year. Some of the 1877s come with a frosty appearance, but all were struck as Proofs. The present coin is fully mirrored and quite attractive. Underpriced in relation to more modern "rarities."
- 2253 1878 Choice Brilliant Proof. As with the nickel three cent piece of this date, a Proof-only coin. Some come frosty (as 1877) but all were as Proof. This one fully mirrorlike.
- 2254 1880 Low mintage. Choice Brilliant Proof.
- 2255 1880 Duplicate. Brilliant Proof.

- 2263 1883 Shield. Last year of type. Gem Brilliant Proof.
- 2264 1883 Shield. Choice Brilliant Proof.

Bowers and Ruddy Galleries - U.S. Nickel 5c

2265 1883 Shield. Choice Brilliant Uncirculated, tiny planchet flaws on obverse and reverse. Not only was the alloy on five cent pieces hard to strike with dies, it was also difficult to melt and properly alloy. Often a small bubble or bit of grit got imbedded in the metal. If this was near the surface when the coin was struck it left a flake, pit, defect or streak. The small defects on this coin came from such impurities. While lowering the value a bit, if the defects are tiny, such as these, the coin's desirability isn't impaired.

- 2266 1885 Liberty nickel. A key date. Lovely Choice Brilliant Proof. The last date purchased by many collectors-but perhaps it should be the first! If you've been thinking of assembling a select set of Liberty head nickels, consider starting with this specimen: it's very select, it rarely appears for sale in such high grade, and prices of rarities tend to rise more quickly than type prices. It's also lovely by itself!
- 2267 1887 Choice Brilliant Proof. Well struck. 1887 is notorious for poor strike quality on Proofs (all denominations). The 1887 offered here is a pleasant exception!
- 2268 1888 Choice Brilliant Proof, nice light toning. Far scarcer as a date than its mintage would hint at.
- 2269 1890 Choice Brilliant Proof.
- 2270 1890 Brilliant Proof.
- 2271 1890 Choice Brilliant Uncirculated. Attractive golden color. Beautiful.

1943-P Cupro-nickel 5c

2312 1943-P Nickel struck on a cupro-nickel pre-wartime planchet. Very Fine, Accompanied by A.N.A.C.S. certificate no. 4223. Only a couple of off-metal 1943-P nickels exist. This coin appeared in our Scott Collection in June 1975.

A rare, rare coin for the nickel five-cent piece specialist. Potentially worth a four-figure price.

U.S. Half Dimes

2313 1795 Valentine No. 4A. Gem Brilliant Uncirculated. Remarkable state of preservation. Well struck and bright lustre. Most early U.S. coins went directly into circulation for there was a dire need of them by businessmen. That one could have survived in such a state as this is almost unbelieveable. Certainly some farsighted dignitary of mint official retained this beauty. In the ensuing generations, it was passed down without impairments so the lucky collector may bid for it today. If you've desired the finest, here it is.

- 2314 1795 V-2. EF obverse, AU reverse. Nice strike and well centered on the planchet. Perfect for a type set if the previous lot is not within your reach.
- 2315 1795 V-5. Extremely Fine obverse; Very Fine reverse. Nice, unimpaired coin.

Bowers and Ruddy Calleries U.S. Nickel 5c; Half Dimes

2316 1797 16 stars on obverse. Valentine-4. Draped bust, small eagle. Choice Uncirculated, gold and blue toning giving a pleasing effect. Most small eagle half dimes are weakly struck in the centers, as is this one. Evidently the thinness of the planchet caused the mint people some problems. The present coin has a full strike around the periphery and subdued histre throughout highlighted by the most delicate blue and gold toning.

> The small eagle type is lacking in most collections. Few were made. Fewer yet survive. Very, very few are this nice! Perhaps now is the time to place your bid.

2317 1801 Heraldic cagle type, V-1, About Good, old-time seratches here and there.

- 2318 1805 Fine to Very Fine. V-1. Excellent heraldic eagle type coin.
- 2319 1830 Capped bust. Choice Brilliant Uncirculated. Well struck and bright lustre.
- 2320 1831 Brilliant Uncirculated.
- 2321 1832 Brilliant Uncirculated, trace of friction on highest points. Thus, technically Borderline Uncirculated, but far nicer than most half dimes so offered.
- 2322 1834 Brilliant Uncirculated.

2323 1835 Choice Brilliant Uncirculated, lovely shades of iridescent toning on the obverse. Large 5C variety.

- 2324 1835 Choice Brilliant Uncirculated. Large 5C. Duplicate to the preceding. Just as well struck and lustrous. Perfect type coins.
- 2325 1837 Bust. Large 5C. Borderline Uncirculated, lustrous.
- 2326 1837 No stars. Liberty seated design. Borderlinc Uncirculated, full mint lustre. A few tiny hairlines do not detract from the overall desirability of the coin.
- 2327 1837 No stars. Borderline Uncirculated. As nice as the previous coin.
- 2328 1837 No stars. Borderline Uncirculated.

2329 1838 No drapery. Choice Brilliant Uncirculated. The no drapery style was in vogue for a few years. It was replaced in 1840 on most of the seated Liberty coins by a more fully cloaked Miss Liberty. The 1838-1840 issues without drapery were engraved by Christian Gobrecht – famous medalist and Mint engraver. Bowers and Ruddy Calleries - U.S. Half Dimes

2330 1842 Choice Brilliant Uncirculated, with a hint of toning. The with drapery, stars-on-obverse design of 1840-1859 is underrated in higher grades. As an added bonus, the issues of the 1840s are far, far scarcer than the mid to late-1850s.

- 2331 1842 Choice Brilliant Uncirculated. As nice as the preceding and just as scarce in this grade.
- 2332 1844 Choice Brilliant Uncirculated.
- 2333 1847 Brilliant Uncirculated, quite close to the Choice range.
- 2334 1849/6 Overdate. Brilliant Uncirculated.
- 2335 1853 Arrows at date. Choice Brilliant Uncirculated. The year 1853 saw a slight reduction in weight of most of the silver issues. Arrows were added flanking the date to denote this difference and to help Treasury officials in rounding up the earlier, heavier coins for remelting. The arrows half dimes have enjoyed good popularity through the years as short-lived and historic type coins. This Choice Brilliant Uncirculated coin should be an excellent candidate.

- 2336 1853-O Arrows. Choice Brilliant Uncirculated. Deep golden toning. All the desirability of the preceding arrows half dime with the added advantage of scarce New Orleans issue.
- 2337 1854 Arrows. Choice Brilliant Uncirculated. Fully struck Particularly noticeable on the stars and reverse wreath.

- 2338 1856 Gem Brilliant Uncirculated. A blazing jewel. Fully struck. Even Miss Liberty's head shows detailed hairdo. Sharp stars and wreath. The ultimate in a business strike coin. Perfect for even the most exacting numismatist!
- 2339 1856 Brilliant Uncirculated, a few light surface marks, but still quite desirable. An inexpensive way to portray this type.
- 2340 1857 Choice Brilliant Uncirculated. Better than average strike for this date (which often comes poorly defined).
- 2341 1857 Brilliant Uncirculated, lustrous.
- 2342 1857 Brilliant Uncirculated. Softly struck on the obverse.
- 2343 1858 Choice Brilliant Uncirculated. A lovely example. Some flat stars keep us from calting this Gem. The fields are virtually free of marks and the lustre is quite attractive. Even a hint of golden toning.
- 2344 1858-O Choice Brilliant Uncirculated. A desirable New Orleans issue.
- 2345 1859 Choice Proof, deep rich, golden toning. One of only two

collectible dates of the stars obverse type in Proof gra-Very few were distributed to the collectors of the til Even fewer exist as nice as this one.

- 2349 1861 Choice Proof. Attractive iridescent toning.
- 2350 1862 Brilliant Uncirculated. Somewhat prooflike. Really nez-Choice than straight BU.

2351 1863 Choice Brilliant Proof. Low mintage date both in Proce well as a business strike.

2352 1865 Brilliant Proof. Small mintage of 500.

- 2353 1867 Choice Brilliant Proof. Frosted devices give a two-tid effect to the deep mirror fields.
- 2354 1868 Choice Proof, blue iridescent toning.

- 2355 1868-S Gem Brilliant Uncirculated. Full mint frost. Most of San Francisco Mint half dimes are very, very scarce in ne state. Out in the Wild West, few collectors were available save out newly minted coins. Everyone was too busy makk a living. 1868-S is on many a want list. Here's your char for a top quality example.
- 2356 1870 Choice Brilliant Proof. One of only 1,000 minted in Pre-

- 2360 1872 Brilliant Uncirculated.

2361 1872-S Mintmark within wreath. Choice Brilliant Uncirculated. Undonbtedly from a small hoard of several dozen mint state specimens that surfaced a few years back. One of the nicer coins.

- 2362 1872-S Mintmark within wreath. Choice Brilliant Uncirculated. Mate to the preceding.
- 2363 1872-S Mintmark within wreath. Brilliant Uncirculated, small scratch on the reverse, but still lovely.
- 2364 1872-S Mintmark within. Brilliant Uncirculated.
- 2365 1872-S Mintmark within. Borderline Uncirculated.
- 2366 1872-S Mintmark below wreath. The second variety for 1872-S. It is not known why the San Francisco Mint toyed with mintmark position this year (see also the 1875 dimes). Rare Mint State 1798 Dime

See Color Photo

2375 1798 Draped bust dime. Heraldic eagle reverse. Brilliant Uncirculated, prooflike fields. Nicely struck (an additional rarity!). 1798 is the most inexpensive (and thus most collectible) dime in the 18th century. If you've been seeking a quality coin of this type, the present 1798 should fit the bill.

Frosty Mint State 1807 Dime

See Color Photo

2376 1807 Draped bust dime. Last year of the heraldic eagle motif. Choice Brilliant Uncirculated and especially lustrous. Characteristically (for 1807) the rims are lightly struck. This is most noticeable on the reverse. However, the full legends are clearly struck. Sometimes the words UNITED and AMERICA come obliterated on 1807. Not here, however. A rare coin in Choice BU condition.

Choice BU 1823/2 Overdate Dime

See Color Photo

2379 1823/2 Overdate. Variety with large "E"s in legend. Choice Brilliant Uncirculated. You might want to consider this for your type set. The overdate feature enhances the beauty and interest of the coin.

2380 1823/2 Overdate. Large "E"s in legends. Borderline Uncirculated, lustrous and well above average for the date.

Frosty 1825 Bust Dime

See Color Photo

2381 1825 Choice Brilliant Uncirculated. An early dime still blessed with lots of original mint frost! As is usually the case among these very early issues, some of the design is not well struck up (notably on the eagle's head and neck)—and the reason is simply that the mint did not possess the technology to make a "perfect" product every time.

U.S. Twenty-Cent Pieces

A Well Struck 1875-S Twenty Cent Piece

See Color Photo

2463 1875-S Choice Brilliant Uncirculated, hight golden-green toning. Exceptional strike. Often branch mint twenty cent pieces come weakly struck on Miss Liberty's head, the stars, and the eagle's wing. Not in this instance!

2464 1875-S Choice Brilliant Uncirculated, fully struck as the last. A second opportunity to acquire a much needed type coin.

2465 1875-S AU.

Gem Proof 1876 Centennial Issue

2466 1876 Gem Proof, lavender-gray toning. One of the lowest mintage dates in the series and always commanding attention from collectors because of the 1876 date.

Choice Proof 1878 With 600 Mintage

2467 1878 Proof-only date having just 600 struck. Choice Brilliant Proof. The public saw no need for the 20c denomination – two dimes fit the need adequately – so business strikes ended with 1876. However, a few proofs were minted in 1877 and 1878 (the last year of the series). The present coin is a great example of this classic type.

U.S. Quarter Dollars

High Grade 1804 Quarter Rarity

2468 1804 Extremely Fine. One of the highest grade 1804s around. Most all arc found from Fair to Very Fine range. Only a couple Uncirculated pieces are known, and very few as nice as this. Should bring near \$2500.

Choice Uncirculated 1806 Quarter Dollar

- 2469 1806 Choice Uncirculated, lightly toned. Important heraldic eagle type piece. Above average strike everywhere except perhaps the shield on the reverse. Early bust quarter dollars have been quiet for the past 18 months or so. Now may be the time to pick up one while available. Most important, you can buy it "at YOUR price!"
- 2470 1815 Bust quarter. Interesting variety having an "E" punched above Miss Liberty's head. Other counterstamps seen on the 1815-1828 series are "L" and "R." No one in the numismatic fraternity has been able to explain this phenomenon. AU and nice.

Note: The small counterstamped letters are found on bust quarters ranging in grade from Good all the way to Choice Uncirculated!

Gem Brilliant Uncirculated 1818 Quarter

2471 1818 Gem Brilliant Uneireulated, beautiful gold and blue peripheral toning. Sharply struck, too! See the eolor photograph (or better yet, try to view the coin before the sale) so you can appreciate real beauty in an American elassie.

- 2474 1831 Small letters as last. Brilliant Uncirculated. Full coruseating mint lustre.

Choice BU 1834 Quarter

See Color Photo

- 2475 1834 Choice Brilliant Uncirculated. Another in this stellar listing of Uncirculated bust quarters. Please don't come to think of bust quarters in BU grades as "common" or readily available. This is definitely not the ease. Usually, most auctions are lucky to have one of each type (large size and small size) in Uncirculated condition. We are very pleased to be able to offer for your bidding several of each!
- 2476 1834 Borderline Uncirculated. A hint of wear (only a few months' worth of eirculation at best?) away from full Uncirculated.
- 2477 1835 Borderline Uncirculated. A lovely coin. Good for any high quality numismatic collection. Best of all, you ean name the price!

SALE CONDUCTED BY BOWERS AND RUDDY GALLERIES 2478 1840-O No drapery. Scarce New Orleans coin. Borderline Uncirculated, weak strike in centers. Full mint lustre, including across the devices (high points).

- 2479 1854 Arrows at date. This type minted for two years only. Always needed by collectors. Choice Brilliant Uneirculated.
- 2480 1854 Arrows. AU. Full strike.

and most important eoins in the sale. Walter Breen estimates that fewer than 25 Proofs of 1855 are known to exist. If you've ever wanted the ultimate in rarity for inclusion in your collection, consider this 1855. There is a small lint mark on the reverse which can be used for pedigree purposes in the future. Often early (prc-1858) Proof eoins struck by Philadelphia show minor lint marks. These arose from an improper inspection of the coining dies and planchets. A bit of metal wire or even cloth fiber adhered to the die. Under 50 to 70 tons of pressure, the tiny bit of matter became embedded in the coin.

We feel that this Proof 1855 quarter is a must if you are considering assembling a collection of American rarities. The future should prove us out.

2482 1855 Arrows. Brilliant Uneireulated. Well struck and even somewhat prooflike.

Very Rare Proof 1857 Seated Quarter

See Color Photo

2483 1857 Choice Brilliant Proof. Another rare, early Proof quarter dollar. It wasn't until the next year (1858) that the Philadelphia Mint set up a collector program for providing sales of current Proofs. Before 1858, only a select few (dignitarics, Congressmen, people with "friends," etc.) could obtain U.S. Proof coins.

Consider this when you think over the possible purehase of the 1857.

- 2507 1873 With arrows. Brilliant Proof, light hairlines. A two-year type, needed by all type set collectors. This one should be attractive because you can set the price you pay.

2508 1873-S Arrows, Brilliant Uncirculated. Of added interest because of the San Francisco mintmark.

2509 1874 Arrows. Choice Brilliant Proof. Attractive Proof of the two year with-arrows type. Just 700 struck in Proof.

- 2524 1882 Brilliant Proof.

2525 1883 Choice Brilliant Proof.

Note: All of the seated quarters from 1879 to 1889 are scarce whether a Proof or business strike. Commencing in 1878-9, the mints (Philadelphia as well as the branches) were forced to coin gobs of Morgan dollars due to the boondoggle of the Bland-Allison Act of 1878. This Act called for the striking of large quantities of silver dollars. So, the mint couldn't strike other denominations until there was free time. Here is one time where shady political lobbying gave us a bonus (at least collectors, that is, and over three quarters of a century later!).

Rare BU 1916 Standing Liberty Quarter

See Color Photo

- 2585 1916 The first year of issue of the Standing Liberty quarter series. Also, the smallest mintage - 52,000. Brilliant Uncirculated. Quite attractive. Often, first-year-of-issue U.S. coins were saved in quantities by collectors and non-collectors. Evidently the 1916 quarter hit at the end of the year. Very few were saved by the people of that time. A bonus for collectors of rare coins today.
- 2586 1917 Type 1. Choice Brilliant Uncirculated. Here is a popular type coin. With the 1916 reserved for collectors of rarities, 1917 is the only date readily available to fill the type. This increasing demand has played a key role in the price history of 1917 quarters. Just check some past issues of the *Guide Book*.

- 2587 1917 Type 1. Choice Brilliant Uncirculated, full head. An especially nice coin displaying fully struck designs.
- 2588 1917 Type 1. Choice Brilliant Uncirculated, full head. Twin to the preceding. In fact, in these few lots you can have your choice of four Choice BU, full head 1917s. All are equally nice and equally desirable.
- 2589 1917 Type 1. Choice Brilliant Uncirculated, full head, Attractive light toning.
- 2590 1917 Type 1. Choice Brilliant Uncirculated, full head.
- 2591 1917 Type 1. Brilliant Uncirculated, planchet defect on reverse.
- 2592 1917-D Type 1. Choice Brilliant Uncirculated, full head. A bit more expensive than the 1917 Philadelphia coins of previous lots, but many times rarer in this condition (in fact, in ALL conditions!).
- 2593 1917-D Type 1. Brilliant Uncirculated. Somewhat dull, but very presentable.
- 2594 1917-S Type 1. Brilliant Uncirculated.

- 2595 1917 Type 2. Gem Brilliant Uncirculated, full head. A bright jewel of a coin.
- 2596 1917-D Type 2. Choice Brilliant Uncirculated, with 90% full head. Most all Denver Mint Standing Liberty quarters come with less than adequate head detail on Miss Liberty. Due to a slight problem with the design, the head, being a high point and near the rim, couldn't be brought up. Only with higher pressure on the dies (and resultant reduced die life) did the mints strike coins having full heads. The present 1917-D is well above average for Denver.
- 2597 1918-S Choice Brilliant Uncirculated.
- 2598 1919-S Extremely Fine. A key date. Scarce in all conditions.
- 2599 1920 Choice Brilliant Uncirculated, full head.
- 2600 1920-S Choice Brilliant Uncirculated. Bright lustre.
- 2601 1921 Choice Brilliant Uncirculated. 1921 was a year of depression in the country. Demand for coins by businesses dropped off abruptly at the end of 1920. Few quarters were struck – and these only at Philadelphia. Just check mintage figures for other denominations. 1921 has always been considered a key year in U.S. coins.
- 2602 1923 Gem Brilliant Uncirculated, full head.
- 2603 1923-S Scarce coin. Borderline Uncirculated.
- 2604 1924 D Choice Brilliant Uncirculated.
- 2605 1926 Choice Brilliant Uncirculated.
- 2606 1926 Choice Brilliant Uncirculated. Nice as the last.

U.S. Half Dollars

2628 1806 Pointed 6 in date. O-118. Attractive draped bust Liberty and heraldic eagle reverse type coin. Choice Uncirculated, nicely toned. Displaying blues, sca green and gold colors. Well above average in strike quality (where usually these halves come with flattened centers). See color photograph.

Bowers and Ruddy Galleries - U.S. Half Dollars

Second High Grade 1806 Bust Half

- 2629 1806 Pointed 6. O-115. Uncirculated, ouce cleaned, now retoning nicely. Above average strike, too.
- 2630 1806 Knob 6. O-107. Rarity-6. Extremely Fine obverse; AU reverse. Unfortunately marred somewhat by several deep scratches on the reverse. A very rare die variety.

- 2632 1809 Capped bust design. O-108. Rarity-5. Brilliant Uncirculated, planchet lamination on obverse. Probably caused by an impurity in the metal alloy.
- 2633 1809 O-107. AU, medium gray toning.

- 2634 1811 Large 8. O-104. Choice Brilliant Uncirculated. Well struck. Touch of golden toning.
- 2635 1811 O-102. Rarity-6. AU.
- 2636 1813 O-101. Interesting die blunder. The well known 50c over UNI reverse. The mint employee whose job it was to punch in the legends for the reverse goofed. He started UNI of UNITED beneath the eagle, caught his error and overpunched the proper 50c. However, the UNI is still clearly there! The present coin is a sharply struck Borderline Uncirculated.
 - "Dear Sirs:

"I would like to tell you how pleased I am with the coins I received in your Getty sale. I especially like the Reeded Edge Half Dollars, and the 1872 2c piece is well worth the cost to me." an unsolicited testimonial from L.F. of New Ulm, Minn.

2637 1819/8 Overdate, O-101. Choice Brilliant Uncirculated. Full mint frost. The coin is fully struck up and the overdate feature easily seen. Stars needle sharp. A wonderful example of an elusive coin.

- 2638 1824 Over various dates. O-103. One of the most jumbled overdate coins in the U.S. series. Some authorities suggest "4 over 2 over 0." Perhaps they're right. Choice Uncirculated, light toning. "Cartwheel" lustre.
- 2639 1828 Square based 2, small 8s in date. O-121. Rarity-5. Choice Brilliant Uncirculated, light toning on the obverse. Excellent surfaces. All but a couple of the stars are perfectly struck up.
- 2640 1829/7 Overdate. O-101. Borderline Uncirculated. prooflike surfaces. 9/7 feature clearly visible to the naked eye.
- 2641 1832 O-102. Choice Brilliant Uncirculated. Full mint frost.

- 2642 1834 Small date, stars and letters. O-120. Choice Brilliant Uncirculated. Nice surfaces.
- 2643 1835 O-101. Choice Brilliant Uncirculated. Well struck.

Choice BU 1837 Reeded Edge Half

2645 1837 Reeded edge. Choice Brilliant Uncirculated, beautiful. Forgetting the 1836 R.E. (which is prohibitively expensive in this grade), the 1837 is the only date available to represent the type. Here is a perfect representative to do the representing.

- 2646 1837 Attractively toned Uncirculated, very near the Choice class. Gold and blue toning.
- 2647 1837 Extremely Fine, light toning.
- 2648 1838 Borderline Uncirculated, lustrous.
- 2649 1838 Extremely Fine.

2650 1839 Bust type half dollar with small letters reverse (as used on 1839-1841 Liberty seated coins). This important coin traces its pedigree to our Scott Collection salc. It is presently unlisted in the *Guide Book* and other standard references!

The obverse is of the standard 1839 draped bust style. The reverse, however, does not employ the usual style found on this piece. Rather, it has the small-letters reverse as used with Liberty seated half dollars 1839-1841. Unlike the regular 1839 bust half dollar reverse, this 1839 has a smaller and more delicate eagle.

The coin is in Very Fine grade (with some surface marks) and was apparently released into eirculation to serve as a currency medium, as opposed to having been struck as a pattern. So far as we know, the coin is absolutely unique!

2651 1839 Bust. VF obverse; EF reverse.

- 2652 1839 Liberty seated half dollar. Design with drapery from Miss Liberty's elbow. Brilliant Uncirculated, lustrous.
- 2653 1840 Medium letters reverse of 1838. Extremely Fine, niccly toned. Small "x" cut in field on reverse.

2654 1843 Choice Brilliant Uncirculated.

2655 1844-O Dramatic double date variety. AU, lustrous. Exceptionally nice!

2656 1846 6 over horizontal 6. Brilliant Uncirculated. Quite rare in this condition.

2657 1853 Arrows at date, rays on reverse. Brilliant Uncirculated. Well struck (including Miss Liberty's head and the stars surrounding her) which is important and desirable. A lovely example of the one-year arrows and rays motif.

- 2658 1853 Arrows and rays. Enstrous AU.
- 2659 1853 Arrows and rays. Extremely Fine. Nice fields.

Exceptional 1853-O Arrows and Rays Half Dollar

2660 1853-O Arrows and rays. Choice Brilliant Uncirculated, prooflike fields. A lovely example. Added desirability arises out of its New Orleans port of departure. "O" pieces are far, far scarcer than the Philadelphia issue.

- 2661 1855-O Arrows Brilliant Uncirculated. Well struck and lustrous. Mighty close to the Choice category.
- 2662 1855-O Arrows. Brilliant Uncirculated. A little less nice than the last, but certainly worthy of your consideration.
- 2663 1856 Choice Brilliant Uncirculated, a couple of tiny hairline scratches.
- 2664 1858 Choice Brilliant Uncirculated.
- 2665 1858 Choice Brilliant Uncirculated. Equal to the last.
- 2666 1859-O Choice Brilliant Uncirculated, light golden brown toning. Well struck New Orleans coin.
- 2667 1861 Choice Brilliant Uncirculated.
- 2668 1861 Brilliant Uncirculated.
- 2669 1863-S Choice Brilliant Uncirculated.
- 2670 1863-S Choice Brilliant Uncirculated. A twin!

- 2671 1865 Choice Brilliant Proof. For the collector who prefers a Brilliant field to one with toning, try this 1865.
- 2672 1865 Choice Proof, steel gray and iridescent hlue toning. One of only 500 struck. Few are as nice as this.
- 2673 1865 Choice Proof matte-like fields.
- 2674 1869 Choice Brilliant Proof. An attractive example of the "with motto" design.

- 2675 1870 Brilliant Proof, iridescent peripheral toning.
- 2676 1871 Choice Brilliant Proof. One of 960 struck.

Gem Golden Proof 1874 Arrows Half Dollar

2677 1874 Arrows. Gem Brilliant Proof, light golden toning. Much desired as a type. Here's an unimprovable coin. The deep mirror fields, golden colored, offset by the frosted devices, is an exciting effect. See color photograph.

2678 1874 Arrows. Choice Brilliant Uneirculated. Well struck and lustrous.

2679 1874 Arrows. Choice Brilliant Uncirculated. Another nice example, lovely as the last.

- 2680 1874 Arrows. Frosty Brilliant Uncirculated.
- 2681 1875 Choice Brilliant Uncirculated. Very close to Gem condition. Keeping it from this is a miniscule scratch in the obverse field. Try to view this one. You'll probably want to bid on it. Frosty.
- 2682 1876 Brilliant Proof, lightly toned on reverse.

- 2684 1877 Choice Brilliant Uncirculated.
- 2685 1877 Brilliant Uncirculated.

- 2086 1877-CC Brilliant Uncirculated. Popular because of the Carson City minimark. Why not consider adding this coin to your type set (giving an added flair).
- 2087 1877-S Choice Brilliant Uncirculated. Light toning in the gold to blue lines.
- 2688 1878 Choice Brilliant Uneirenlated, Frosty.

2689 1879 Low mintage of 5,900 (includes 1,100 Proofs). Choice Brilliant Proof. Exceptional!

2690 1879 Choice Brilliant Proof. Another of these. Fully as nice as the last and equally desired by numismatists everywhere.

- 2691 1880 Again, a low mintage date. 1,355 Proofs and 8,400 business strikes in all. (The mints were too busy cranking out Morgan dollars by the millions to have time to strike anything but paltry quantities of half dollars). Choice Brilliant Proof.
- 2692 1880 Choice Brilliant Proof. Just like the last.
- 2693 1880 Brilliant Proof, light peripheral toning. A few hairlines.

- 2694 1881 Just 975 Proofs and 10,000 business strikes struck! Choice Brilliant Proof.
- 2695 1882 1,039 Proofs and 8,000 business strikes. Choice Brilliant Proof light gold and blue toning. Very beautiful, natural eolor.

2696 1884 Lowest overall mintage in this era. Brilliant Proof. Struck with lightly rusted dies (or struck on poorly polished planchet) causing a porous-like appearance when viewed mider strong magnification. Of course, still entirely mirrorlike.

- 2697 1885 Choice Proof light gold and blue toning. Only 930 Proofs struck. Far fewer than this number escaped being mishandled, cleaned or impaired over the years. The present coin is an exciting exception to the often-hairlined coins. It is one of the nieest we've had the privilege to offer in recent times.
- 2698 1885 Choice Proof deep magenta and blue toning. Will make a colorful addition to your type set.
- 2699 1888 Choice Proof with steel gray toning. 832 struck in Proof.
- 2700 1889 Choice Proof lavender and rose toning. Nice!
- 2701 1890 Brilliant Proof. Small Proof mintage of 590.
- 2702 1891 Choice Brilliant Proof. Attractive last year coin.
- 2703 1891 Brilliant Proof.

Note: Half dollars continue into the next session with an excellent selection of Barber issues.

AUCTION: AN EASY WAY TO BUY!

Thousands of Bowers and Ruddy clients have enjoyed bidding in our auction sales. It's fun in a special way-like a sporting event or game-and the rewards are those Special Coins you've been hoping to own.

This catalogue offers a varied selection of coins. Our suggestion is to bid liberally on the pieces you want the most and to bid less on those you want only if "the price is right." If you don't bid on a Lot, you certainly won't get it—but if you do bid, you might get it! After each auction we have many people who say "I wish that I had bid on Lot such-and-such seeing that it sold for so-and-so. I would have paid that!" While our sales have a generous quotient of landmark rarities, there are also many \$25, \$50, \$100 and several-hundred-dollar coins, not to mention special sets, dealer's Lots, and so on. No matter what your interests are, chances are good that you'll find some items of interest in each of our sales.

Read the Terms of Sale carefully. They are a two-way street and are for your protection as well as ours. All coins are guaranteed genuine and provision is made in the event that we misdescribe a Lot (to err is human, and occasionally we make a mistake). Then send in your bid sheet. We'll represent you at the sale and will buy for you below your maximum bid if competition permits. A few days after the sale you'll be notified of your results, and then in a short time the coins you've seen described in this catalogue will be in your hands!

Bidding in our auction sales is a really great way to add to your collection. We invite your participation in this sale. And, if you have any questions—either about bidding or about a particular coin—we're at your service here to answer them.

U.S. Silver Dollars

2779 1795 Flowing hair dollar. B-6. Three leaves beneath each wing.

The specimen is Brilliant Uncirculated, with prooflike fields and nicely struck. Some minor friction on the highest points is mentioned for accuracy, but this does not detract at all. The surfaces are free of the often-encountered abrasions.

For the silver dollar collector or the type set cuthusiast this represents a wonderful opportunity to acquire one of the nicest collectable 1795 dollars.

Superb 1795 Dollar

2780 1795 B-5. Flowing hair style. As preceding. Nice Borderline Uncirculated. A trace of toning around the letters. Excellent specimen of this early issue.

- 2781 1795 B-5. Flowing hair. Very Fine.
- 2782 1795 B-1. Flowing hair. Very Good, some light abrasions here and there.
- 2783 1796 B-4. Draped bust, small eagle. Variety with small date and large letters. Fine, a few marks.

2784 1797 B-1b. Stars 9x7. Borderline Uncirculated, small mark at top on the obverse. Quite lustrons. Only friction on the higher points removes this from the Uncirculated classification.

Brilliant Uncirculated 1798 Heraldic Eagle \$1

- 2785 **1798** B-23. **Brilliant Uncirculated**, lightly struck in centers. Fully lustrous with golden toning.
- 2786 1799/8 Overdate. B-2. AG-Good.

2787 1799 B-21. Choice Uncirculated, lightly toned. Exceptionally well struck, particularly on the 13 stars on the obverse.

Lustrous Borderline Uncirculated 1799 \$1

2788 1799 B-10. Lustrous and bright Borderline Uncirculated. Coins of this quality are often "stretched" to full BU classification. However, a hint of rub on the highest points attests to a fcw months' worth of circulation or perhaps just true "cabinet friction." In addition to the bright appearance of the coin, the reverse is semi-prooflike!

- 2789 1799 B-14. Fine.
- 2790 1841 Liberty seated dollar. Brilliant Uncirculated, weakly struck (as often found on this date).
- 2791 1841 Brilliant Uncirculated. Unfortunately, some misguided soul (possibly as a love token) scratched a light SW above the cagle's head. Still, not imattractive.
- 2792 1842 Brilliant Uncirculated, well struck. Choice but for light, old cleaning on the reverse.
- 2793 1843 Brilliant Uncirculated, prooflike fields.
- 2794 1846 Brilliant Uncirculated, heavily bagmarked. The marks attest to the rather rough treatment silver dollars received during their years of use in this country. An inexpensive way to display an Uncirculated example of this type.
- 2795 1847 Extremely Fine.
- 2796 1850-O A coin that has received quite a lot of publicity over the years. And justifiably so! It is scarce! Very Fine, surface marks. Deep gray toning.

2797 1856 A low mintage, highly melted date from the mid-1850s. Borderline Uncirculated.

Classic 1858 Proof Seated Dollar

2798 1858 Brilliant Proof. Mint figures give a mintage of 80 pieces, but experts believe this should be closer to 150. But that's it! A total mintage (Proof-only) that few United States coins can match. All this and a reasonable price for a true American classic.

2799 1859 Choice Brilliant Proof. While no mintage figure is listed for this date in the *Guide Book*, it can be estimated that around 500 were struck in Proof.

Very Nice 1860 Choice BU Dottar

- 2800 1860 Choice Brilliant Uncirculated, prooflike. Perfect fields. 1860 Philadelphia Mint is much rarer in relation to mintage than the 1860-O. Yet it still sells for about the same. Surely this is a golden (or is it silver?) opportunity!

Lovely Proof 1861 Seated Dollar

2805 1861 Choice Brilliant Proof. Mintage of 1,000. Not too many can exist as nice as this one. Perhaps only 10% of the original mintage.

2807 1861 Brilliant Proof, light hairlines. Not bad — and reasonably priced because you get to name the final figure.

One of Just 470 1864 Proof \$1 Minted

- 2808 1864 Choice Brilliant Proof. Lovely. A low-mintage no motto type coin you should consider.
- 2809 1865 Brilliant Proof, impaired. Light hairlines and contact marks. Only 500 Proofs struck this year.

- 2810 1865 Choice Brilliant Uncirculated, slight weakness of strike in centers. Not unusual. What is unusual is finding an Uncirculated 1865. They are very rare thus.
- 2811 1867 Brilliant Proof, hairlines and some handling marks. 625 Proofs struck in 1867.

Choice Proof 1870 Dotlar

- 2812 1870 Choice Brilliant Proof. The frosted devices nicely offset the mirror-like fields giving that pleasing feeling of "quality."
- 2813 1870-CC Scarce, first year for the Carson City Mint. Low mintage, also. F-VF, obverse pin scratch.

- 2818 1872-S Duplicate. Good.

- 2820 1878 Morgan dollar. 8 tail feathers. A popular variety that was changed later in the year. From then on the bird has 7 tail feathers. The present coin is highly desirable in that it is Choice Proof with lovely blue toning.

- 2823 Six Morgan dollars in the ultimate Gem Brilliant Uncirculated condition: (1) 1878-S; (2) 1879; (3) 1879-O which is scarce this nice; (4) 1879-S and near MS-70!; (5) 1880; (6) 1880-S. All superb coins. (Total: 6 pieces)
- 2824 1879 Brilliant Proof. Mintage: 1,100 Proofs.

Lovely 1889-CC Choice BU Morgan Dollar

- 2844 1889-CC One of the rarest, most desired coins in the silver dollar series. The present coin meets the test of the grade most collectors want – Choice Brilliant Uncirculated. Here's your opportunity to fill that empty hole in your album.
- 2845 1889-O Choice Brilliant Uncirculated. full strike.

- 2855 1892 O Choice Brilliant Uncirculated, full strike. Very near Gem quality. This one should get much attention.

Rare Brilliant Uncirculaled 1892-S \$1

- 2856 1892-S Brilliant Uncirculated. A full MS-60 coin (and perhaps even a bit nieer on the reverse). There is an almost total lack of bagmarks. A few light slide marks are visible on Miss Liberty's cheek, but these are far fainter than often found. An important coin. Will make a fine addition to any Morgan dollar set.
- 2857 1892-S EF-AU, lustrous.
- 2858 1893 Choice Brilliant Uncirculated.
- 2859 1893-CC Choice Brilliant Uncirculated, and fully struck! This is very unusual for 1893-CC. Normally Liberty's ear and the eagle's breast are weakly struck (they being the two high points on the coin). This particular coin is fully struck up in these two critical areas. Watch the bids fly on this one!
- 2860 1893-0 One of the popular key dates in the Morgan series. Choice Brilliant Uncirculated, and well struck for the year.

2861 1893-S One of two major keys. The present specimen is fully Brilliant Uncirculated and has a few light slide marks on Miss Liberty's check. Also a shade lightly struck over the ear. Complete brilliance and semi-prooflike fields.

Most of the 100,000 went directly into circulation in the West. There they wore down and were lost to attrition over the years. So few were saved at the time of issue that fully Uncirculated 1893-S coins are very difficult to find.

Choice Proof 1894 Morgan Dollar

2862 1894 One of the scarcest Philadelphia coins. Choice Brilliant Proof. Only 972 Proofs struck. Most today are hairlined or mishandled. This coin is far, far above average. Fully frosted devices stand out against the deep mirror fields.

- 2863 1894 Choice Brilliant Uncirculated. Well struck and frosty. A perfect MS-65 example worthy of the linest collections.
- 2864 1894 Borderline Uncirculated, lustrous.
- 2865 1894-O Choice Brilliant Uncirculated. Frosty and desirable.
- 2866 1894-O Brilliant Uncirculated.
- 2867 1894-S Choice Brilliant Uncirculated.

Beautiful 1895-0 Morgan Dollar

2868 1895-O Choice Brilliant Uncirculated. Well struck and brilliant. 1895-O is on many numismatists' want lists. Here is one to fitthe bill.

2869 1895-0 Extremely Fine.

30% MORE THAN HE EXPECTED!

One of our consignors recently wrote to us to say that his coins sold for 30° ; more than he expected to receive—after his study of the coin market! Armand Champa, one of America's most prominent numismatists, wrote to us to say that his coins sold for DOUBLE the highest cash offer he was able to get for his coins by having dealers come to make bids on his collection. And, our files are full of many other such experiences. Recently, a piece which the consignor expected to get about \$15,000 for fetched \$50,000! We could think of even more spectacular instances, but yon get the idea!

Thinking of selling? There is one right answer: An auction sale by Bowers and Ruddy Galleries, Inc.

Remarkable Group of 1895-S Morgan Dollars

The following fourteen lots comprise a wonderful opportunity for the numismatist. Whether you're completing a set of Morgans or solely an investor in scarce date coins, you'll want to bid on one of these. 1895-S has always been a "toughie," Usually when offered, they come in BU-60 or Borderline Uncirculated grades (which don't fit in well with Choice BU sets). Through a lucky acquisition, the consignor of these fourteen was able to purchase near-identical coins. They all hover around the MS-65 category and will fit in to even the fussiest numismatist's collection.

Should you be looking for an 1895-S and want to bid on one of the following (but want only ONE coin, of course), please mention on your bid sheet that you wish only one coin out of the grouping. Then, if the first or second or third lot goes for more, you're still protected by us. This will help your chances immensely!

For the fourteen lucky bidders who do purchase an 1895-S, congratulations! You have selected one of the most popular keys in outstanding condition.

2870 1895-S Choice Brilliant Uncirculated. Semi-prooflike reverse.

2871 1895-S Choice Brilliant Uncirculated. Prooflike obverse and reverse.

2872 1895-S Choice Brilliant Uncirculated.

Rare 1852/1 Moffat-Humbert "Double Eagle"

2980 1852/1 Moffat-Humbert "double eagle." A rare piece, considerably rarer than the usually encountered 1853. Designs similar, but not quite the same as the later coin. When one considers the rough manner in which territorial pieces were handled by western folk, and the rarity created when these were melted subsequent to the opening of the U.S. Mint in San Francisco, this coin is superbly preserved! Beantiful EF-AU.

THE BEST PRICE FOR YOUR COINS!

When Armand Champa, one of America's leading numismatists,. decided to sell his collection he solicited cash offers from leading: dealers all over America. Dissatisfied with the bids received and with the great time and effort expended to show his collection to many different people, he then consigned his magnificent collection to us for auction.

The Armand Champa Collection sale took place-and attracted international attention. When the sale was over, Mr. Champa told us that his coins sold in our sale for NEARLY DOUBLE the highest cash offer he received earlier! So appreciative was he, that he did something completely unprecedented in the annals of numismatics: completely unsolicited by us, Armand Champa placed large advertisements in "The Numismatist," "Coin World," and "Numismatic News" to thank us for the great job we did for him!

Thinking of selling? Do as Mr. Champa did: consign your coins to Bowers and Ruddy Galleries. It's the ideal way to sell.

2983 1855 Wass, Molitor \$50 gold. Round. Wass, Molitor & Co. struck four types of gold coins. The rare \$50 gold piece was minted only during the company's final year in business, in 1855. The \$50 denomination is the largest of all private gold coins of early California. It is an important territorial gold coin because it was issued concurrently with the San Francisco Mint's early coinage. However, the late 1850s marked the end of a spirited but short period of independent coinage created to meet pressing business needs. The present coin shows a great deal of detail but is extensively marked (resulting from the means of storage and its use in circulation). An historic coin in Fine condition.

U.S. Commemorative Coins

U.S. Commemorative Silver Coins

United States commemorative coins are in the forefront of popularity in American numismatics. In a short span of time (1892-1954) fifty types of silver coins and nine types of gold coins were struck commemorating various interesting (and sometimes obscure) events of history. In addition, varieties plus issues from the three mints add up to a grouping of 157 different collectable coins.

Commemoratives have been one of our favorite series. Where else in American numismatics, can you acquire a complete collection of coins in full Uncirculated condition without having to wait many years for some of the scarce issues to become available?

The following lots represent a large and varied group of commemoratives for bidders. You'll find everything from inexpensive issues to rare issues. From nice Uncirculated coins to Gem BUs fit for even the fussiest numismatist. Hopefully you'll discover that particular piece you've been hunting for!

Fascinating 1914 Philadelphia Mint Set

3234 1914 Philadelphia Mint set. It is so seldom we're able to offer one of these mint sets, we can't recall the last occurrence! While Proof sets of 1914 come on the auction block from time to time, when was the last time you've heard of a mint set? Included are 50c, 25c, 10c, 5c, and 1c all from the Philadelphia Mint. Also included is the original registered shipping envelope. Coins are as struck (thus an interesting study of what grade coins actually leave the mint). Grades range from Choice to Gem. All coins have original, light toning that gives an attractive extra.

Note: Most pattern coins struck in aluminum are very scarce, due to low mintages. Why? Before the 1880s, aluminum was a rare metal. Its easy smelting didn't occur until 1886. So, when a pattern is struck in aluminum, keep in mind that, at that time, aluminum was more expensive than gold! Beautiful and Rare 1879 Morgan Dime

How You Can Bid SUCCESSFULLY by Mail

by Bob Korver Manager Bowers & Ruddy Galleries Auction Department

Success Can be Yours

Over the years tens of thousands of clients from all over the world have successfully purchased rare coins, currency, and other items in Bowers and Ruddy Galleries auction sales.

While many of these purchasers have attended our auctions in person, most have submitted their bids by mail. We have also seen many unsuccessful mail bidders whose lack of purchases have been due to two main reasons: low bids and a lack of understanding of the bidding procedure.

Success can be yours when you bid by mail! In this article I draw upon my experience and observations and offer suggestions which should improve your chances of success when bidding by mail. Even if you've been a successful bidder in the past you may find some of my suggestions to be valuable.

Information in the Catalog

Nearly all the information necessary to successfully purchase coins by mail bidding can be found in the front part of each of the Bowers and Ruddy Galleries auction catalogues as well as on the bid sheet itself. I suggest that you read this information carefully, paying particular attention to the Terms of Sale. Not only is there valuable information there, but you legally agree to abide by the Terms of Sale when you sign your bid sheet.

Are You a New Client?

Are you a new client? Well, feel right at home! Bowers and Ruddy Galleries is always pleased to welcome new bidders. Most of your questions concerning bidding procedures should be answered here. Should you have any additional questions our Auction Department would be pleased to answer them by telephone or mail. If you are in doubt, ask. We want you not only to be satisfied, we want you to be pleased! If you are a first-time bidder please send your bid sheet as soon as possible, along with a 25% deposit and a list of numismatic and credit references. It takes us time to specifically check each reference, so the earlier you send us your bid sheet the more sure we can be of entering your bids before the sale date.

What Lots Should I Bid On?

This question goes through the mind of every bidder. Most of our auction catalogs contain items in many different numismatic fields. So many items are listed that no single bidder can afford to buy everything or even close to it. So, the problem is: what lots should you bid on in order to obtain the best results?

As a beginning step I recommend u'sing a worksheet during your first reading of the catalog. Jot down lots of interest and the approximate amount they are worth to you. Be sure to check the index to the sale, for often catalogs contain many different consignments, and items in the same series can appear in several different places in the same catalog issue.

Bid on items which fit in with your collecting or investment objectives. Consult your want list, consider any other possibilities and interests which run through your mind, and then determine which lots are of most significance to you. Don't be whimsical. Bid on items which you'll enjoy owning after you receive them.

How Much Should I Bid?

No one can tell you how much you should bid in order to win a lot. While many coins have general value ranges, the ultimate value of any coin is determined by how much a bidder is willing to pay. In general, pricing information for United States coins is readily available from numerous sources, so we do not provide printed estimates in the catalog. However, if you have any difficulty in estimating a

-Page 117-

value and would like our opinion, we invite you to telephone or write. Please remember that we do not know what other people will be bidding until the sale takes place, so there is no guarantee that our pre-sale estimates will represent the actual successful bidding range. Higher or lower prices may prevail once the sale takes place.

Pricing information on ancient coins, coins of the world, and currency is more difficult to obtain, so in many instances our Ancient Coin Department and our World Coin Department will provide printed estimates in the catalog. I recommend that you use these guides together with your own price studies, including prices realized lists from previous Bowers and Ruddy Galleries auctions. These lists are available for a nominal price and make the complete catalog a truly lasting reference.

When you have established the amount you want to bid, enter it on your *worksheet*. When you have done this for all lots of interest you are now faced with the question of which coins you want the most and how much totally you can afford to spend. If you attend the sale in person it is easy to control the total of your successful bids. However, by mail it is more difficult. So, carefully considering your budget and starting with a worksheet can be helpful.

Do not submit bids for a sum more that you can comfortably afford to pay. Participating in our auction should be a pleasurable experience, and there is no sense placing an undue strain on your budget.

I recommend that you bid generously on the lots which you strongly want to buy, bearing in mind that the same catalog you hold in your hands will be read by thousands of other potential bidders in all parts of the world. If a coin is particularly scarce or desirable, if it appears on the market infrequently, and the last sale record is, say, \$500 several months ago, chances are fairly good that a bid in the \$500 to \$750 range would be successful, and chances are even better for a bid higher than that. On the other hand, chances that such a coin can be obtained for just \$300 to \$400 are rather remote.

In addition to lots which are of strong interest to you, there may be some lots in the catalog which you would want to own "if the price is right." if they appear to be bargains to you. For these lots you may wish to submit lower bids. You probably will not achieve a high degree of success with such low bids, but occasionally a lot will be won in this manner. Be prepared, however, to be able to pay for whatever lots you bid on whether you are successful on just one lot or on several dozen.

To re-emphasize a point, due to the careful descriptions we give to each coin and our careful grading, bids substantially below the market value generally will be a waste of your time and ours. If you want to be successful, I recommend reasonable and realistic bids.

When you have completed your worksheet, make your final decisions. By using the worksheet you can easily add or delete lots, increase or decrease amounts, and otherwise calculate what you wish to purchase without confusing the final bid sheet. Remember not to bid more than your ability to pay. Auction invoices are payable upon receipt of the auction invoice and/or the coins, as per our Terms of Sale. We are acting as agent for both the consignors and the bidders, and prompt payment is your legal obligation.

If you wish to pay your invoice by charge card you may do so, but only with the understanding that you must pay the same percentage that we must pay for this service. Please add 2½% to invoices paid by Mastercharge and 3% when paid by Visa. We regret passing this fee along, but our profit margin in auction sales is too slim to allow the loss. Retail coin purchases may be charged without the fee.

The Bid Sheet

The bid sheet is a very important part of our transaction and must be treated with the greatest care. Your signature on it obligates you to follow the Terms of Sale and to honor all bids. Fill it out carefully and check it twice for accuracy using your worksheet as a guide.

List your bids in numerical lot order on the bid sheet we provide. This bid sheet was designed for very specific purposes, and it makes our job much easier. List your bids in vertical columns beginning in the upper left corner on the front. For best clarity I recommend that you use a blue or black pen. Other colored pens, pencils, or marking pens are difficult to read. Make all entries legibly. If we cannot decipher a bid we cannot enter it. And, our guessing at whether an indistinct figure is a "3" or "5", for example, is apt to lead to mistakes.

If you have any questions concerning a particular lot, please contact us at the *earliest* possible date. As the auction sale draws near, things get busier and busier here. By contacting us early, there is plenty of time for exchange of any additional information required.

As auctions are conducted by our Auction Department, please do not attach correspondence concerning direct sales, research, or other Bowers and Ruddy Galleries business to your bid sheet. Please write to us separately about such other items.

Changes on your bid sheet should be avoided. However, I realize that sometimes illness or financial reasons will dictate cancellation or change of your bids. If this happens, *telephone* our Auction Department *immediately*. Be sure to do this *before* the sale. I strongly recommend a telephone call rather than a letter, for it is impossible for us to cancel bids or change bids if notice of this arrives by mail after the sale has taken place. After you telephone us, please confirm changes by letter.

If changes are necessary in your final bid sheet, do not write over the incorrect entry. It is far better to fully cross it out and to re-enter it in the right manner. Trivial or irrelevant marks on your bid sheet may cause us to misread it.

If you are bidding only on a few items enter them on the front of the bid sheet. If you are bidding on many items, fill out the front first and then continue on the back. If desired, an additional sheet of paper can be used as well. Please do not put a few bids on the front of the bid sheet, leaving many blank spaces on the front, and then put additional bids on the back—for as careful as we try to be here, we may assume that as the front spaces are not filled in completely there are no additional bids elsewhere on the sheet.

Fill in *all* information requested on the bid sheet, especially your telephone number. In this way, if we have a question concerning any bid we will contact you. If there is a question and we are unable to contact you for clarification, the result may be that your bid will be cancelled by us—an unfortunate thing for both of us.

-Page 118-

Also, it is important to remember that when you bid in our sales do not subinit bids on identical coins elsewhere or buy the same coins elsewhere, for we will expect you to honor any bids on which you are successful—and unless you specifically want to collect duplicates you inay end up with two specimens of the same coin. Auction sales are not approval sales. If you are not completely positive that you actually want to own the coin, do not bid on it.

If you are purchasing coins from several sources and would like to know the results of your bids as soon as possible, I invite you to telephone our office the third business day following the sale to determine whether you are successful. Usually we have all of the information compiled by that time.

On your bid sheet enter only the lot number (no other descriptions or adjectives are necessary), and use the number in its entirety. For example, if you wish to bid on lots 1205, 1206, and 1207, enter the numbers in their entirety. If you list the lots as 1205, 6. and 7, then we may enter bids for you on lots 6 and 7. We implore you not to use shortcuts!

Please submit your bids in even dollar amounts such as, for example, \$120, \$122, \$127, or whatever. Cents and fractional dollar amounts will be ignored. For example, such bids as \$127.35, \$127.50, and \$127.90 will all be entered as \$127.

Be especially careful of transposition errors. If you want to bid on lot 1206, be sure it is not entered as lot 1602, for example.

Before you mail your bid sheet make a copy of it for your own records. If here at Bowers and Ruddy Galleries we enter one of your bids incorrectly you are not obligated by our mistake. However, if the error is yours and you bid on the wrong lot, bid the wrong amount, or otherwise make an error, then you are obligated to accept the consequences of the error. So, please do your best to be careful.

Optional 10% or 20% Increase

We offer a special service to bidders who wish to increase their bids in order to purchase a lot at a small advance over the original bid. Simply check the 10% or 20% space at the bottom of the bid sheet. These increases are especially useful if you are really determined to win the lot. While there is no guarantee that the 10% or 20% increase will insure success, it has been our experience that often this will make the winning difference. Remember, we purchase the lots for you below your high bid if the competition permits. An explanation of this is given in the "Instructions for Mail Bidders" section in the front of the auction catalog.

Special Instructions: One Lot Only

Our catalogs are usually arranged so that each session contains a variety of items. As noted earlier, pieces within a given specialty may appear in several places in the catalog. Suppose, for example, that you wish to purchase only one Choice Brilliant Uncirculated 1918 quarter dollar, and the sale contains four specimens, lots 901, 902, 1212, and 1457. If you make a notation on your bid sheet we will be pleased to execute special instruction bids at no extra charge to you. As these will be handled separately from your other bids, please pair or group the bids and notate them as per the accompanying illustration.

SIGNATURE (Bid Sheet MUST be Signed)

Lot	Bid		Lot
901	2507		
902	250	Lovie	
1212	250	LOT	
1457	250	ONL	ſ

Another example of a special instruction bid might be that you want either lot 850, a 1932-S quarter, or lot 1352, a 1938-D half dollar, but you don't want both coins. In this instance, follow the following example:

ONE	LOTON	LY	
\$ 850	675	3	
(1352	425-	D	

As your special instruction bids will have to be executed from the auction floor by one of our staff members, they are subject to the auction rule that the first bid recognized by the auctioneer at the winning amount wins. In case of tie bids between the floor and the mail bid book, the mail bid takes precedence; however, this preference cannot be accorded your bid when executed from the floor. Please list your special instruction bids in consecutive order.

Do not make your special instruction bids unduly complicated or there may be further problems. While we will do our best with special instruction bids, we cannot be responsible if we inadvertently miss a bid on a lot, due to the pressure of the sale.

Special Instructions: Maximum Expenditure Bids

Never bid beyond your ability to pay. You have a legal obligation to pay for every lot for which you are the successful bidder, as per our Terms of Sale. If you have a limited budget of, for example, \$2000 and you wish to maximize your chances of spending as much of this amount as possible, you can bid more than this amount by placing a "Maximum Expenditure Bid." You can then submit bids up to four times the amount of your maximum authorized expenditure. Your bid sheet will be executed from the floor by one of our representatives who will keep a running total of the amount spent. As soon as the \$2000 is reached, further bids will be cancelled.

MAXIM \$3	UM EX	PEN	UDITUR	Ē
Lot	Bid		Lot	
210	700			
247	700			
317	1100			
420	1050			
424	825			
666	910			
723	1000			

Normally we accept Maximum Expenditure Bids only from clients who wish to spend \$1000 or more totally, due to the bookkeeping involved. To bid in this manner, write on the very top line of the bid sheet, for example: "Maximum Expenditure: \$2,000," or whatever your spending limit is.

Very important note: We cannot mix "One Lot Only" and "Maximum Expenditure Bids" due to the complex mathematics involved and the pressure of the sale itself.

The Maximum Expenditure Bid policy will allow you to bid more liberally on all lots which you are interested in, since you don't have to worry about being successful on more than you can afford. You may spend less than your limit, but you will never spend more. We will do our best to follow your instructions strictly. Let us suppose, for example, that your limit is \$10,000 and that at a given point in the sale we have spent \$9500 for your account. Your bid will not be executed beyond the remaining \$500. If the next lot which is of interest to you comes up at \$625 we cannot bid on it for you, for this exceeds your limit.

Inspection of Lots

All lots being sold are available for inspection before the auction. Times and location for in-person examination are printed in the catalog. Mail inspection of lots is available to clients who have established sufficient credit and who agree to adhere to our rules. In order to view lots by mail the following procedures must be observed:

1. This service is available to established clients only; clients who have made appropriate auction purchases in the past. The amount of value sent for inspection must be in line with your previous credit record.

2. If credit references or past experience are not satisfactory to us, we may at our option, decline sending the coins or alternatively make arrangements to submit them to your bank.

3. As multiple requests may be made for the same coin, it is sometimes possible that certain coins cannot be sent for mail inspection as they are not available for that purpose or could not be returned in time to permit examination by in-person bidders. Due to time limitations, lots will only be mailed for pre-sale examination within the continental United States.

4. Lots must be returned within 24 hours of receipt together with your check for round-trip postage and insurance costs. Lots must be returned to us insured for the amount we specify.

5. Lots may not be removed from protective envelopes or display holders.

The Auction

The most commonly asked question about our auction procedure is the execution of mail bids. I construct a hypothetical lot 1798 for which we have received the following mail bids:

Bidder	No.	378	\$180
Bidder	No.	415	\$150
Bidder	No.	623	\$160
Bidder	No.	962	\$170
Bidder	No.	1098	\$180
Bidder	No.	1578	\$250

In this case, we would act as agent for Bidder 1578, the highest mail bidder. As agent, we try to purchase the lots as cheaply as possible against the floor competition. The lot would probably open at \$190 or \$195, about 5% to 10%, at the auctioneer's discretion, above the next highest mail bid, which in this instance is the second high mail bid of \$180. We would then represent Bidder No. 1578 against floor competition up to the limit of \$250 (unless the 10% or 20% increase had been checked). If there were no floor bids at all, the lot would sell for \$190, a savings to Bidder No. 1578 of \$60 from his maximum authorization! Many of our clients have learned to depend on this service and to bid quite liberally, purchasing many coins and saving much money. Of course, the closer your bid is to the current market value, the less the chance is of saving money. Most savings are when very liberal bids are submitted but competition does not make it necessary for us to use them to the maximum.

If Bidder No. 1578 had submitted a \$170 bid he would have been unsuccessful. As the two highest bids then would have been tied at \$180, the bidding would have opened at that figure. If there had been no further competition, the lot would have been awarded to Bidder No. 379, the first mail bid received for that figure.

Conclusions and Summary

In our auctions Bowers and Ruddy Galleries acts as agent for both the consignor and the bidder. We do our best to meet this dual obligation in the fairest way possible. We want the consignor to be pleased with the accurate descriptions of his coins and we want the bidder to be pleased with the coins he receives.

The procedures described here insure you that as a mail bidder you will pay only as much for a lot as you would if you were attending the sale in person. At the same time they still guarantee the consignor the maximum return on his coins within the limits of bidding competition.

In summary, I recommend reading the catalog carefully, searching throughout the descriptions for lots of special interest. Then use a worksheet to formulate your bids. When filling out the bid sheet do it clearly so that each bid is precise and clear. Don't bid more than you can afford to pay. I invite you to take advantage of our special bidding instructions: our One Lot Only service and our Maximum Expenditure Bid service (but not both at the same time) by making appropriate notations on your bid sheet as per the examples given here.

If you have any problems or questions or if our Auction Department can help in any other way please contact us as soon as possible. We'll do our best to take care of everything to your satisfaction!
